

University of Louisville - Faculty Senate (FS) - Academic Programs Committee

(APC) Committee report for March 6, 2019 FS meeting

Prepared by Chin Ng, Associate Professor of Radiology (Medicine) - Committee Chair

---

Working in conjunction with the Planning and Budget Committee (P&B), APC has recommended the Distilled Spirits Business Certificate proposed by the College of Business (COB) for the full senate to vote in the March 6<sup>th</sup> monthly meeting. APC has invited Kristen Lucas, the Certificate Program Coordinator from COB to the meeting for a short Q&A session. Immediately after that, FS will vote on the proposal.

APC has provided input to P&B on the final version of the proposed Center for Archeology and Cultural Heritage (CACHE).

The next proposal in the pipeline is MS in Additive Manufacturing and Design from Speed School of Engineering. In addition, COB has another certificate proposal in the works – Business Analytics which is a companion to their recently approved MS. So far APC has not received any of these proposals for review.
