Robert Goldstein  
Office of the Provost  
University of Louisville  
Louisville, KY 40292

Bob,

We have been asked to provide a letter of support for the proposed master's program in Artificial Intelligence in Medicine sponsored jointly by the Department of Bioengineering and the School of Public Health. We have completed a review of our available resources in this area which indicates that we need to expand our electronic journal holdings to adequately support the program. Accordingly, we request \$6,550 from the program in its first year to purchase the journals noted in our review, a copy of which is attached.

Please contact us if you have any questions or need additional information.

Sincerely,

Robert E. Fox, Jr.  
Dean, University Libraries
