

Committee on Committees and Credentials
December 2023 Report

At the October Faculty Senate meeting, in new business, a Faculty Senator requested that election results be reported according to Roberts Rules: by person and vote count. This has not occurred in the past elections; however, upon further research, this is the formal process. Therefore, the results of the September special election are below.

The CCC is considering an amendment to the bylaws regarding this matter, and it will be discussed with the full Faculty Senate in early 2024.
