

## BUSINESS SERVICES

March 29, 2017

The University of Louisville Business Services will be moving forward with two major RFPs and one consulting service contract in spring 2017.

- 1) Parking & Transportation
  - Consultant Services – Help analyze current operations and provide recommendations on the best approach to improve the overall parking and transportation department
- 2) Manage Print
  - Campus-wide RFP for a Centralized Print Solution
- 3) Wire & Wireless Network
  - Campus-wide RFP for Network Services

Through these RFP processes, our desired outcome is to generate solutions to enhance current operations, reduce cost and raise funds to invest back into campus infrastructure, which includes equipment upgrade and replacements.
