

# Accelerating OneIT

Faculty Senate

May 7, 2025

Karlis Kaugars, VP of IT / CIO

- The central goals of One IT plan
  - Service: improve responsiveness and service delivery
  - Security: reduce risk of data loss
  - Efficiency: consolidate administrative systems
  - Equity: ensure that faculty and staff have appropriate IT
- Accelerate progress towards these goals
  - Rapid change in both regulatory and risk factors
  - Financial uncertainty

- Now - July
  - Intensive assessment of all university IT resources
  - Restructuring central IT
  - Individual unit engagement to identify unique and common IT needs
- July - August
  - Staff reporting line transition period
  - High-level plan developed and shared
- August - December
  - Detailed plan for per-unit service delivery
  - New budget model developed

- **Avoiding:** reduced support, inadequate planning, staff losses
- **Embracing:** savings for the core mission, principles of equity and effectiveness
- Effective solid / dotted line reporting
- IT Structure / People to lead:
  - Professional school support
  - Traditional academic support
  - Staff / Administrative support
  - All within a strong team / cross-communicative / partnership model with technical areas
- Strong, engaged IT governance model
- Systems and processes to manage services
