

Hello,

My name is Sabrina Collins and I am the Academic Vice President of SGA.

The only item I would like to report at the meeting is as follows:

I am currently looking for students interested in serving on various academic committees as a representative of SGA. In the past, not all academic units have received the same amount of representation. This upcoming year, I would like to appoint more students from units such as the Kent School, the School of Music, and various post-undergraduate programs. Please let me know if there are active students you know of who may be interested in filling one of these roles.

Best,

Sabrina Collins
