#### **NOTE 1 – BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (Schedule) of the University of Louisville (University) has been prepared in the format as set forth in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The purpose of the Schedule is to present a consolidated summary of those expenditures of the University for the year ended June 30, 2021, which has been financed by the U.S. Government (Federal awards). For purposes of the Schedule, Federal awards include all Federal assistance and procurement relationships entered into directly and indirectly between the University and the Federal government and sub-awards from nonfederal organizations made under federally sponsored agreements.

The accounting principles followed by the University and used in preparing the Schedule are as follows:

The schedule of expenditures of federal awards includes amounts expended by the University and its affiliated corporation, the University of Louisville Research Foundation, Inc. Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance for all awards with the exception of Assistance Listing 21.019, which follows criteria determined by the Department of Treasury for allowability of costs. Under these principles, certain types of expenditures are not allowable or are limited as to reimbursement.

Deductions (expenditures) for direct costs are recognized as incurred using the cash method of accounting and the cost accounting principles contained in Uniform Guidance. Under those cost principles, certain types of expenditures are not allowable or are limited as to reimbursement. Moreover, expenditures include a portion of costs associated with general University activities (facilities and administrative costs) which are allocated to awards under negotiated formulas commonly referred to as indirect cost rates. The University has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

#### NOTE 2 - NONCASH FINANCIAL ASSISTANCE

Outstanding loan balances at June 30, 2021 were as follows:

|   | Federal<br>Assistance |    | Total        |

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees University of Louisville Louisville, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the aggregate discretely presented component units of University of Louisville, collectively a component unit of the Commonwealth of Kentucky as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise University of Louisville's basic financial statements, and have issued our report thereon dated October 19, 2021.

The financial statements of University of Louisville Health, Inc. (UofL Health), University of Louisville Real Estate Foundation, Inc. (ULREF), and the University of Louisville Foundation, Inc. and Affiliates (the Foundation) were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with UofL Health, ULREF, and the Foundation.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered University of Louisville's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of University of Louisville's internal control. Accordingly, we do not express an opinion on the effectiveness of University of Louisville's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Board of Trustees University of Louisville

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as item 2021-001 that we consider to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether University of Louisville's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### University of Louisville's Response to Findings

University of Louisville's response to the findings identified in our audit is described in the accompanying Schedule of Findings. University of Louisville's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM, REPORT ON INTERNAL CONTROL OVER COMPLIANCE, AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees University of Louisville Louisville, Kentucky

#### Report on Compliance for Each Major Federal Program

We have audited University of Louisville's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of University of Louisville's major federal programs for the year ended June 30, 2021. University of Louisville's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The University of Louisville's basic financial statements include the operations of the University of Louisville Health, Inc., a discretely presented component unit, which expended federal awards, which is not included in the University of Louisville's schedule of expenditures of federal awards during the year ended June 30, 2021. Our audit, described below, did not include the operations of University of Louisville Health, Inc., because the discretely presented component unit engaged other auditors to perform an audit of compliance.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of University of Louisville's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about University of Louisville's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of University of Louisville's compliance.

#### Opinion on Each Major Federal Program

In our opinion, University of Louisville complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

#### Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as items 2021-002 and 2021-003. Our opinion on each major federal program is not modified with respect to this matter.

University of Louisville's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. University of Louisville's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

#### **Report on Internal Control Over Compliance**

Management of University of Louisville is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered University of Louisville's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of University of Louisville's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Board of Trustees University of Louisville

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2021-002 and 2021-003 that we consider to be a significant deficiencies.

University of Louisville's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. University of Louisville's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of University of Louisville as of and for the year ended June 30, 2021, and have issued our report thereon dated October 19, 2021, which contained an unmodified opinion on those financial statements. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the University's financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

#### Section II - Financial Statement Findings

#### 2021 - 001 Audit Adjustments

Type of Finding: Significant Deficiency in Internal Control over Financial Reporting

**Condition:** During the audit process, two material audit adjustments were recorded to increase revenue and expenses by approximately \$70,891,000, and to increase grants accounts receivable, decrease deferred revenues and increase bad debt expense by approximately \$6,957,000, \$5,050,000, and \$1,907,000, respectively.

**Criteria:** The University must have controls in place to ensure that nonroutine transactions are properly recorded. Additionally, the University must have controls in place to ensure grant transactions and account balances are reconciled and properly recorded.

**Effect:** Lack of controls in place to ensure nonroutine transactions and grant account balances are properly recorded may result in the preparation of the Financial Statements that inaccurately reflect the financial position of the University.

**Cause:** The University's controls were not operating effectively to be able to properly record nonroutine transactions. Additionally, the University's controls were not operating effectively to ensure grant transactions and account balances were properly recorded.

Repeat Finding: No

**Recommendation:** The University should pursue consultation on all nonroutine transactions to ensure they are properly recorded. Additionally, the University should implement policies and procedures to ensure grant transactions and account balances are reconciled and reviewed on a timely basis.

Views of responsible officials: The University places significant importance on establishing sound internal controls and ensuring those controls are effectively executed, monitored, and revised as needed. The finding related to materially adjusting revenues and expenses stems from payments made to the Commonwealth for enhanced Medicaid reimbursement requests that ultimately flow to the affiliated health system. Historically, the University has netted these payments with Medicaid revenues as these enhanced reimbursements are a mandatory revenue match and did not result in earned income to the University. However, in FY21, the University restructured the funds flows between the affiliated organizations and began to make the enhanced payment requests on behalf of the affiliated health system. Those payments were identified as expenses instead of reductions of revenue. This revised (and corrected) accounting has been identified, retroactively applied to the FY21 balances, and will be applied going forward for the enhanced payment requests made on behalf of operating partners. The University does maintain a protocol for evaluating the technical accuracy of accounting transactions and, when appropriate, shares with the external auditor for validation and will continue that practice in a more expansive manner.

#### Section II – Financial Statement Findings (Continued)

#### 2021 – 001 Audit Adjustments (Continued)

#### Views of responsible officials (Continued):

The finding related to grants receivables was brought about by turnover of individuals responsible for billing. After the turnover, billing activities were not correctly processed resulting in a buildup of balances in deferred revenues and accounts receivable. Identification of the issue has resulted in correction of the billing activities and review of the deferred revenue and accounts receivable balances to determine corrections needed. Going forward, the University has restaffed the vacated positions and will establish formal procedures to process grant receivables along with an additional review of grant accounts receivables and deferred revenues to identify variances and anomalies, along with keeping an adequate reserve for uncollectible accounts. The review will be performed by individuals in grants management with quarterly oversight by Controller's Office.

#### Section III – Findings and Questioned Costs – Major Federal Programs

#### 2021 - 002 NSLDS Enrollment Reporting

Federal agency: U.S. Department of Education

Federal program title: Student Financial Aid Cluster

Federal Assistance listing Numbers: 84.007, 84.033, 84.038, 84.063, 84.268, 84.379

Award Period: July 1, 2020 to June 30, 2021

Type of Finding:

Other matters

Criteria or specific requirement: The Code of Federal Regulations, 34 CFR 685.309(b), states schools must have some arrangement to report student enrollment data to the National Student Loan Data System (NSLDS) through an enrollment roster file. The school is required to report changes in the student's enrollment status, the effective date of the status, and an anticipated completion date. The Code of Federal Regulations, 34 CFR 682.610, states that institutions must report accurately the enrollment status of all students regardless if they receive aid from the institution or not. This includes the enrollment effective date and related enrollment status, which must be reported for both the Campus-Level and the Program-Level as well as the program begin date. In addition, at a minimum, schools are required to certify enrollment every 60 days, and respond within 15 days of the date that NSLDS sends a Roster file to the school or its third-party servicer. The Code of Federal Regulations, 34 CFR 685.309 requires that enrollment status changes for students be reported to NSLDS within 30 days or within 60 days if the student with the status change will be reported on a scheduled transmission within 60 days of the change in status. Regulations require the status include an accurate effective date.

**Condition:** During our testing, we noted 10 of 20 students where the student was not reported to NSLDS in a timely manner.

**Questioned Costs: None** 

#### Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

#### 2021 – 002 NSLDS Enrollment Reporting (Continued)

**Context:** In connection to prior year audit finding (2020-001), the University implemented their corrective action plan to correct the effective date of enrollment status changes related to withdrawals on June 1, 2021. Due to the corrective plan implemented, the corrected change in enrollment status dates were not received within the required timeframe for R2T4s. The auditors noted that corrective action was properly implemented to correct the deficiency moving forward.

**Cause:** The University implemented their corrective action plan related to prior year audit finding (2020-001). The completion date of the corrective plan related to prior year audit finding (2020-001) was June 1, 2021. Due to the timing of the corrective action taken, the corrected students were not reported within the 60-day required timeframe.

**Effect:** The NSLDS system is not updated with the student information which can cause over awarding should the student transfer to another institution and the students may not properly enter the repayment period.

Repeat Finding: Yes; 2020-001

**Recommendation:** Corrective action was taken during fiscal year 2021. No further recommendation is needed.

Views of responsible officials: There is no disagreement with the audit finding.

#### 2021 - 003 Allowable Costs

Federal agency: U.S. Department of Education

Federal program title: Governors Emergency Education Relief Fund

Federal Assistance listing Number: 84.425C Award Period: July 1, 2020 to June 30, 2021

Type of Finding:

- Significant Deficiency in Internal Control over Compliance
- Other Matters

**Criteria or specific requirement:** 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award requires compliance with the provisions of Allowable Costs. Costs must be determined in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Condition:** During our testing, we noted one of forty expenditures tested which was inaccurately charged to the federal grant.

**Questioned Costs**: \$50,910

#### Section III – Findings and Questioned Costs – Major Federal Programs (Continued)

#### 2021 – 003 Allowable Costs (Continued)

**Context:** During our testing, it was noted that one expenditure was inaccurately charged to the federal grant.

**Cause:** The University's controls in place to ensure expenditures are accurate and allowable are not operating effectively and failed to detect a clerical error in one expenditure inaccurately charged to the grant.

**Effect:** The auditor noted one instance of noncompliance with the provisions of allowable costs. The internal controls in place are not operating effectively and provide further opportunities for noncompliance.

Repeat Finding: No

**Recommendation:** We recommend the University design controls to ensure an adequate review process is in place to review costs charged to federal awards are accurate.

Views of responsible officials: Controls over expenditures and allowable cost are in place to ensure allowable cost are appropriately charged to grants. The error identified was an allowable cost that was mis-keyed when being allocated to the grant, causing an over charge. The University's established controls over reallocating cost to grants includes review of the entries and supporting documents. This error was an isolated incident as mistakes are usually caught in the review process. The incident has been communicated to the individuals responsible for the review to ensure due care is exercised in cost allocation review.
