Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements University of Louisville Athletic Association, Inc. (Association), a component unit of the University of Louisville, as of and for the year ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Association's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position the Association, as of June 30, 2022 and 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Association and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of a Matter

As disclosed in Note 1, the University implemented the provisions of Governmental Accounting Standards Board Statement No. 87 – Leases. The Standard requires lessees to recognize a right-to-use lease asset and corresponding lease liability and lessors to recognize a lease receivable and corresponding deferred inflow of resources for all leases with lease terms greater than twelve months. Our opinion is not modified with respect to this matter.

Emphasis of Matter Regarding a Correction of an Error

As described in Note 1 to the financial statements, certain misstatements of amounts previously reported on the statement of net position, statement of revenues, expenses, and changes in net position as of and for the year ended June 30, 2021, were discovered by management of the Association during the current year. Accordingly, an adjustment has been made to net position as of June 30, 2021, to correct the misstatement. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Association's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Association's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the require that the that the Management's Discussion and Analysis on pages 4 through 11, and the Post-employment Benefit Information on Page 37 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management Discussion and Analysis (Unaudited)
For Years Ended June 30, 2022 and 2021

Introduction

The following discussion and analysis provides an overview of the financial position and activities of the University of Louisville Athletic Association, Inc. (Association) as of and for the years ended June 30, 2022 and 2021. Comparative information for the year ended June 30, 2020 has been provided where applicable. This discussion has been prepared by management and should be read in conjunction with the financial statements and related notes, which follow this section.

The Association is a Kentucky nonprofit corporation organized in 1984 for the purpose of promoting the intercollegiate athletic activities of the University of Louisville (University), a state-supported metropolitan research university located in Louisville, Kentucky. The Association is reported herein as a separate corporation and it is included in the consolidated financial statements of the University.

The Association's mission, to provide quality intercollegiate athletic programs through a comprehensive sports program, requires a major financial commitment of both operating and capital resources. In addition, the Association is committed to achieving athletic excellence for its student-athletes, maintaining National Collegiate Athletic Association (NCAA) compliance, ensuring full implementation of gender equality plans and offering a wide variety of sports and recreational outlets for the University community, alumni, and visitors.

The Association is committed to the academic achievement and community involvement of its student-athletes. During the 2021/2022 academic year, the overall student athlete GPA for the year was a combined 3.3 with 21 of the 23 sports teams having a collective GPA above 3.0.

On the field, the women's teams finished ninth in the Capital One Cup standings paced by NCAA Final Four appearances for both women's basketball and volleyball. Overall, the department finished 34th in the final Learfield cup standings – the 12th-straight year finishing in the top 40. Women's Tack and Field brought home an NCAA national championship in Pole Vault.

During the 2020 academic year, the World Health Organization declared a pandemic following the outbreak of COVID-19, a respiratory disease caused by a new strain of coronavirus (referred to as the Pandemic). The response to the pandemic caused significant restrictions in the delivery of sporting events, therefore affecting the operations and revenues of the Association. These restrictions have been lifted allowing operations to resume at full capacity during the 2021/2022 fiscal year.

The University has taken measures to make the campus environment safe for faculty, staff and students through the use of masks in close settings, providing on campus testing sites, and real time communications through emails and a dedicated website. The University, along with its affiliated hospital, offered COVID-19 vaccinations to the university population and the community at large.

The operations of the University and the Association have changed and evolved to meet the circumstances of our society. Further adaptive measures may be necessary to meet the needs of the students, faculty, staff and community as the Pandemic unfolds in the future.

Using the Financial Statements

The Association's financial report includes the Statements of Net Position; the Statements of Revenues, Expenses, and Changes in Net Position; and the Statements of Cash Flows. These financial statements are prepared in accordance with Government Accounting Standards Board (GASB) principles, which establish standards for external financial reporting for public colleges and universities. The Association is presented here as a single entity and is also included in the consolidated financial statements of the University.

Statements of Net Position

The statements of net position present the financial position of the Association at the end of each fiscal year. Net position represents the difference between total assets, total deferred outflows of resources, total liabilities, and total deferred inflow of resources. The change in net position indicates whether the overall financial condition has accumulated or consumed resources during the year. Assets, deferred outflows of resources, liabilities, and deferred inflows of resources are generally measured using current values. Pledges receivable with payment terms greater than one year are discounted. Capital assets are stated at historical cost less an allowance for accumulated depreciation.

The condensed version of the Association's assets, liabilities, and net position at June 30, 2022, 2021, and 2020 (in thousands) is summarized below:

For Years Ended June 30, 2022 and 2021

Assets

The primary components of current assets are cash and cash equivalents, pledges and accounts receivable, investments held with the Foundation, and inventory. The Association experienced a decrease in current assets of \$3.8 million when compared to June 30, 2021.

The primary components of noncurrent assets are restricted cash, capital assets, including right-of-use leased assets, and pledges and accounts receivable due in greater than a year. A net increase of \$.5 million in these assets occurred between June 30, 2022 and June 30, 2021.

Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net assets applicable to a future period. The balance of \$1.6 million as of June 30, 2022 consists of a loss on bond refunding of \$570 thousand and \$994 thousand of future payments to be made for other postretirement employment benefits.

Liabilities

The primary components of current liabilities are accounts payable, deferred compensation, deferred ticket revenue, and the current portion of notes payable. The current liabilities increase of \$1.2 million is accounted for from a decrease in advances and an increase in accounts payable and accrued liabilities. The Association had a balance of \$9.0 million drawn on the line of credit as of June 30, 2022.

Noncurrent liabilities net increase of \$4.6 million as of June 30, 2022, when compared to June 30, 2021, is mainly attributed to debt activities. The most significant noncurrent liabilities are interest-free and interest bearing loans from the University and the Foundation, notes and contracts payable, and leases payable over the life of lease contracts.

Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position that applies to future periods. The balance of \$1.4 million consists of \$0.1 million of future receipts from a food service concession arrangement and \$1.3 million related to the change in actuarial assumptions and differences between expected and actual experience in the other postemployment benefit liability.

Net Position

Net position represents the residual interest in the Association's assets after liabilities are deducted. Total net position of \$108.1 million as of June 30, 2022 is reported in the following categories: net investment in capital assets of \$127.2 million; restricted nonexpendable of \$1.8 million; restricted expendable of \$7.6 million, and a net balance in unrestricted of negative \$29 million.

Fiscal Year 2021

Total assets at June 30, 2021 were \$333.1 million, an increase of \$43.8 million from June 30, 2020. The increase is attributable to an addition of right-of-use asset, net of \$46 million.

Deferred outflows of resources were \$1.6 million as of June 30, 2021 representing a minor increase of \$86 thousand from the balance as of June 30, 2020.

Liabilities at June 30, 2021 were \$214.6 million, an increase of \$53.5 million compared to June 30, 2020. This increase is primarily due to adding lease payable of \$44 million and advances of \$5.6 million.

Deferred inflows of resources experienced a net decrease of \$28 thousand from June 30, 2020 to June 30, 2021 due to future benefits of a service concession amortization and a decrease in changes in other post employment benefits.

Management Discussion and Analysis (Unaudited)
For Years Ended June 30, 2022 and 2021

Net position at June 30, 2021 was restated to reflect \$116.7 million, a decrease of \$9.6 million, or 7.6%, when compared to the June 30, 2020 net position. The majority of the decrease is captured in unrestricted net position and is due to the overall loss from operations.

Statements of Revenues, Expenses, and Changes in Net Position

The statements of revenues, expenses, and changes in net position present the Association's results of operations. Revenues and expenses are categorized as operating or nonoperating revenues or expenses according to their source or purpose. Significant sources of revenues such as gifts, investment returns and the supplemental income received from the University for gender equity purposes, as well as the student fees collected, are classified as nonoperating activities. Capitalized assets are being depreciated over their useful lives. Depreciation is recognized as an operating expense.

The Association's condensed statements of revenues, expenses and changes in net position for the years ended June 30, 2022, 2021, and 2020 (in thousands) are summarized below:

Operating Revenues

Total operating revenues were \$96.9 million for the year ending June 30, 2022 an increase of \$34.6 million compared to \$62.4 million for the year ended June 30, 2021. Income from sports programs, primarily from football and basketball ticket sales, comprised \$70.3 million, or 72.5% of total operating revenues for the year compared to \$39.7 million, or 63.7% of total operating revenues for June 30, 2021. Restrictions on capacity and number of tickets sold for large athletic events enacted in response to the Pandemic were lifted. This directly impacted revenues from sports and related ancillary activities related to sports. Other operating revenues amounting to \$26.7 million for the year ended June 30, 2022, and include revenues from sources such as concession sales, parking and facility rentals, sponsorships, and media contracts.

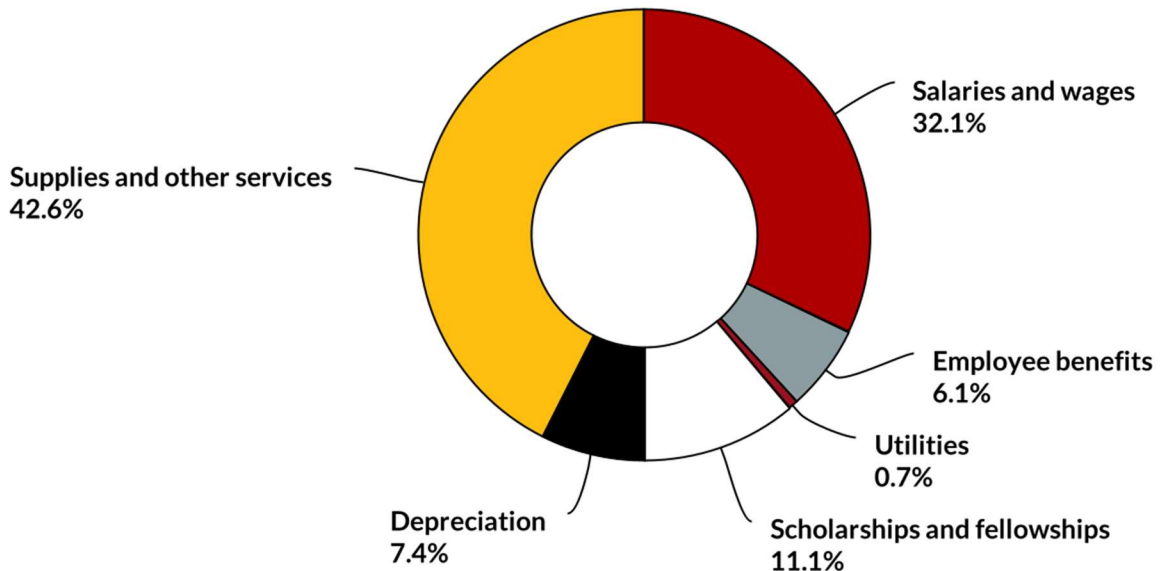

Operating Expenses

Total operating expenses were \$142.2 million and \$104.7 million for the years ended June 30, 2022 and 2021, respectively. For the year ended June 30, 2022, expenses consist mainly of \$74.5 million, or 52.4%, in direct sports-related expenses, an increase of \$23.6 million or 46.4%, compared to \$50.9 million as of June 30, 2021. The remaining \$67.7 million in operating expenses consist mainly of support and administrative services, marketing and development, and depreciation expense.

Total operating expenses increased by \$37.5 million, or 35.8%, in the current year. The increase was predominately in support services, and marketing and development.

The illustrations below show total expenses by natural classification for the years ended June 30, 2022 and 2021:

Operating Loss, Nonoperating Revenues, and Net Position

The Association's loss from operations amounted to \$45.3 million and \$42.3 million for the years ended June 30, 2022 and 2021, respectively. During the fiscal year ended June 30, 2022 the operating loss was offset by the \$36.6 million in nonoperating revenues and gifts, leaving a decrease in net position of \$8.7 million, compared to the \$9.6 million decrease in net position realized during the fiscal year ended June 30, 2021.

Overall, nonoperating revenues increased \$3.9 million, or 12%. The most significant change being a increase of gifts of \$9.5 million offset by a reduction in contributions from related entities of \$4.7 million. The reduction in contributions from related entities is attributed to support received during the year ending June 30, 2021 for Pandemic related expenses.

Fiscal Year 2021

The Association's loss from operations amounted to \$42.3 million and \$33.4 million for the years ended June 30, 2021 and 2020, respectively. During the fiscal year ended June 30, 2021, the operating loss was offset by the \$32.7 million in nonoperating revenues and capital gifts, leaving a decrease in net position of \$9.6 million compared to an increase of \$4.3 million recognized during fiscal year ended June 30, 2020.

Total operating revenues were \$62.4 million for the year ending June 30, 2021 and flat compared to \$86.6 million for the year ended June 30, 2020.

Total operating expenses decreased by \$15.2 million, or 12.7%, for the year ended June 30, 2021 as compared to the year ended June 30, 2020. The decrease is the result of substantial cuts in salaries and operational cost to mitigate the impact of revenue losses and additional expenditures needed to combat the Pandemic.

Overall, nonoperating revenues decreased \$5.0 million, or 13.3% primarily from a reduction in gifts.

Management Discussion and Analysis (Unaudited)
For Years Ended June 30, 2022 and 2021

The Association received \$5.2 million in Covid-19 relief funds from the University to supplement some of the revenues lost from concession sales and event parking, as well as expenses for quarantine, social distancing and expanded cleaning of facilities. These funds are reflected in contributions from related entities.

Statements of Cash Flows

The statements of cash flows provide information about the Association's sources and uses of cash during the year. Cash inflows and outflows are categorized as operating, noncapital financing, capital financing and investing activities.

The statements of cash flows provide additional information about the Association's financial results by reporting the major sources and uses of cash. The condensed statements of cash flows for the years ended June 30, 2022, 2021, and 2020 (in thousands) are summarized below:

Operating Activities

The Association's cash and cash equivalents decreased by \$1.7 million during the year. The Association experienced a net outflow of \$47.1 million, an increase of \$13.3 million for expanded operations, achieving operational levels comparable to pre-pandemic levels.

Other Activities

Cash provided by noncapital and related financing activities of \$24.4 million offset the cash used by operating activities. These cash flows consist primarily of \$27.2 million in gifts received to support the sports programs, noncapital financing activities of \$2.8 million, and offset by \$5.5 million of payments to affiliated entities. Cash provided by capital financing activities of \$21.0 million relates mainly to capital activities for the receipt of capital gifts and purchases of capital assets or payment of debt for capital assets.

Fiscal Year 2021

The Association's cash and cash equivalents increased by \$3.8 million during the year, mostly due to the reduction in operations and a line of credit obtained to support operational activities. The Association experienced a net outflow of \$33.8 million in cash paid for operations. Noncapital financing activities provided \$22.0 million of revenues from gifts and investing activities provided \$3.1 million in revenues.

Economic Factors that May Affect Future Periods

The COVID-19 pandemic continues to have significant effects on global markets, supply chains, businesses and communities. Specific to the Association, COVID-19 may impact various parts of its 2022-2023 operations and financial results, including, but not limited to, loss of revenues due to declines in ticket sales, mandatory restrictions on capacity at sporting events, loss of marketing revenue, cost for increased use of technology, or potential shortages of personnel. Planning for these contingencies and developing mitigating strategies are considered within budgeting and operational activities.

The Association's Board of Directors approved a balanced operating budget for the 2022 fiscal year of \$107.7 million. This represents an increase of \$12.6 million or 13.2% from the 2021 fiscal year budget. Despite the increase, projected revenues were conservatively forecasted due to uncertainty surrounding attendance and economic factors. The Association budget was approved with the knowledge that future sport activities are uncertain and adjustments to the budget to compensate for the changing environment may be necessary.

The goals of the Association continue to include: 1) zero level 1 or 2 NCAA violations, 2) win ACC and NCAA Championships, 3) end each year with a surplus, 4) trust and collaboration become the norm, and 5) improve diversity, equity and inclusion. The Association is also establishing programs and protocols to help its student athletes successfully navigate name, image, likeness (NIL) to comply with NCAA, staff, and Federal Laws. Despite recent financial setbacks due to the Pandemic, the Association continues to make progress in these areas.

The success of the athletics programs managed by the Association is also linked to the success of the University. The university is in the final phases of completing its 2023-2025 strategic plan, addressing how the university ensures student success, creating and supporting a thriving workforce and how the university connects with the community. The university designs its planning and budgeting to support the strategic plan but retains flexibility to meet possible future plan changes. From increasing available student aid to providing an array of compensation improvements to faculty and staff, and investing millions of dollars to improve the university's physical and operational infrastructure.

This financial report is designed to provide a general overview of the Association's finances and to show the Association's accountability for the money it receives. Questions about this report and requests for additional financial information should be directed to the Controller; University of Louisville; Louisville, KY 40292.

1. Basis of Presentation and Summary of Significant Accounting Policies

The University of Louisville Athletic Association, Inc. (Association) (a Kentucky nonprofit corporation) is affiliated with the University of Louisville (University) and is included within the University's financial statements. The Association is a separate corporation organized for the purpose of promoting the intercollegiate athletic activities of the University. The Association has authorized the University to receive, hold and disburse funds on behalf of the Association.

a. Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Government Accounting Standards Board (GASB). The financial statements of the Association have been prepared on the accrual basis of accounting. Revenues, expenses, gains, losses, assets, liabilities and deferred inflows and outflows of resources from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from nonexchange transactions are recognized when all applicable eligibility requirements are met. Internal activity and balances are eliminated in preparation of the financial statements unless they relate to services provided and used externally. Operating revenues and expenses include exchange transactions and program-specific, government-mandated nonexchange transactions. Government-mandated nonexchange transactions that are not program specific, investment income and interest on capital asset-related debt are included in nonoperating revenues and expenses. The Association first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

The financial statements of the Association can be found at the following:

<http://louisville.edu/finance/controller/univacct/finst-1>

b. Cash and Cash Equivalents

The Association considers all investments (not held for long-term purposes) with original maturities of three months or less to be cash equivalents.

c. Accounts and Contributions Receivable

The Association records operating and capital pledges as revenue when all eligibility requirements have been met. Endowment pledges are not recognized as revenue until the gifts are received.

Accounts receivable consist of charges and reimbursements for services provided to students, faculty, staff and external entities. Accounts receivable are recorded net of uncollectible amounts.

d. Inventories

Inventories are valued at the lower of cost or market, under the first-in, first-out method. Inventories consist of equipment, clothing and supplies utilized in sporting activities.

e. Investments

Investments are stated at current fair value. Investments held with the University of Louisville Foundation, Inc. (Foundation) are invested under the policies and objectives established for the Foundation's general endowment pool. In an effort to mitigate market risk, the Foundation has adopted a policy of maintaining a diverse investment pool through the use of target asset allocation guidelines.

These guidelines require the Foundation's investment pool be made up of a mix of publicly traded fixed income and equity securities, private equities and other nonmarketable securities.

The market risk inherent in certain of the Foundation's investments is primarily the potential loss arising from adverse changes in quoted market prices on equity securities and in interest rates on fixed income securities.

UNIVERSITY OF LOUISVILLE ATHLETIC ASSOCIATION, INC.
A Component Unit of the University of Louisville
Notes to Financial Statements
For the Years Ended June 30, 2022 and June 30, 2021

The Foundation invests in various corporate debt, equity and mutual fund securities. Investment securities, in general, are exposed to various risks, such as interest rates, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Foundation's consolidated statements of financial position and the Association's statements of net position.

The Association's permanent endowment funds, held by the Foundation and invested in the Foundation's general endowment pool, are administered under the Uniform Prudent Management of Institutional Funds Act (UPMIFA), as adopted by the Commonwealth of Kentucky (Commonwealth). The Foundation's board of directors has interpreted UPMIFA as requiring preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The investment objectives of the Foundation are to preserve the principal of the endowment funds in both absolute and real terms while maximizing, over the long-term, the total rate of return (yield and appreciation) within reasonable risk parameters.

The Foundation has a standing policy (the spending policy) of appropriating for expenditure each year a percentage of certain endowment funds' average market values over the prior three years through the calendar year-end preceding the year in which expenditure is planned. The Foundation will adjust the spending policy for a given year to mitigate adverse market performance on the level of support provided to the University.

The Association purchased insurance annuity policies to fund deferred compensation arrangements as stipulated by the arrangements. These are classified as other long-term investments in the summary of net position.

f. Capital Assets

Capital assets are stated principally at cost, if purchased, or at estimated acquisition value at date of receipt from donors. Capital assets are depreciated on the straight-line basis over the estimated useful lives of the assets, as follows: buildings - 40 years; land improvements - 40 years; equipment - 3-15 years; and leasehold improvements - 20 years.

The Association does not capitalize interest cost of borrowings related to capital construction.

g. Deferred Outflows and Inflows of Resources

The Association reports deferred outflows of resources, deferred inflows of resources and net position in its statements of net position and related disclosures.

Deferred outflows of resources are \$1.6 million for the years ended June 30, 2022 and 2021. Balances as of June 30, 2022 consist of loss on bond refinancing of \$0.6 million and future payments of other post-employment benefits of \$1.0 million. Balances as of June 30, 2021 consist of loss on bond refinancing of \$0.7 million and other post-employment benefits of \$0.8 million. Deferred outflows of resources related to the loss on bond refinancing will be amortized as a component of interest expense using the effective interest method over the remaining life of the refinanced debt. Deferred outflows of resources related to other post-employment benefits consist of payments to be made in future periods.

Deferred inflows of resources of \$1.4 million as of June 30, 2022 consist of service concession arrangements of \$0.1 million, and changes in actuarial assumptions and differences between expected and actual experience in the other post-employment benefits liability of \$1.3 million. Deferred inflows of resources of \$1.8 million as of June 30, 2021 consist of service concession arrangements of \$0.3 million and changes in actuarial assumptions and differences between expected and active experience in the other post-employment benefits liability of \$1.5 million. Changes in the other post-employment benefits deferred inflow will be recognized in future periods. Deferred inflows from service concession arrangements will be recognized into revenue over the life of the contract.

h. Unearned Compensation Expenses

Unearned compensation expenses are recognized as earned over the term of the related employment agreements.

UNIVERSITY OF LOUISVILLE ATHLETIC ASSOCIATION, INC.

Notes to Financial Statements
For the Years Ended June 30, 2022 and June 30, 2021

i. Compensated Absences

Association policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation or sick benefits when earned, whether the employee is expected to realize the benefit as time off or in cash. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the statement of net position date plus an additional amount for compensation-related payments such as Social Security and Medicare taxes computed using rates in effect at that date.

j. Advances

Advances, which consist primarily of amounts received from individual and season ticket holders for subsequent year intercollegiate athletic activities, suite rentals, and parking revenue, was approximately \$31.1 million and \$36.6 million at June 30, 2022 and 2021. Such advances are recognized over the term of the related athletic activities.

k. Net Position

The net position of the Association is summarized into four major categories as follows:

- a. Net investment in capital assets primarily represents capital assets net of accumulated depreciation and reduced by the outstanding balances of borrowings used to finance the purchase or construction of those assets.
- b. Restricted nonexpendable net position consists of endowment gifts with specific restrictions. These endowments were made by donors to support scholarship expenses.
- c. Restricted expendable net position consists of noncapital assets that must be used for a particular purpose as specified by creditors, granters or donors external to the Association. The Association's most significant components in this category are amounts restricted for capital projects, debt service and quasi-endowment gifts with donor stipulations.
- d. Unrestricted net position represents those balances from operational activities that have not been restricted by parties external to the Association, such as donors. Although unrestricted net position is not subject to externally imposed stipulations, substantially all of the Association's unrestricted net position has been designated for various sport, academic programs, or capital projects.

The following table includes detail of the net position balances as of June 30, 2022 and 2021 (in thousands):

	2022	2021 (Restated)
Net investment in capital assets	\$ 127,205	\$ 130,662

For the Years Ended June 30, 2022 and June 30, 2021

I. Revenue and Expense Classifications

The Association has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues include activities that have the characteristics of exchange transactions, meaning revenues are received in exchange for goods and services, such as (1) tickets for athletic events, (2) concession sales, (3) parking and facility rentals, and (4) media contracts. With the exception of interest expense, loss on investments and contributions to related entities, all expense transactions are classified as operating expenses.

Certain significant revenues relied on for fundamental operational support of the Association are mandated by GASB requirements to be recorded as nonoperating revenues. Nonoperating revenues, meaning revenues received and the Association provided no goods or services, include gifts and investment income.

m. Tax Status

As an affiliate of a state institution of higher education, the income of the Association is generally exempt from federal and state income taxes under Section 115(a) of the Internal Revenue Code and a similar provision of state law. However, the Association is subject to federal and state income tax on any unrelated business taxable income.

n. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and deferred outflows of resources at the date of the financial statements and the reported amounts of revenues, expenses, and other changes in net position during the reporting period. Actual results could differ from those estimates.

o. Reclassifications

Certain 2021 amounts have been reclassified to conform to the 2022 presentation. The reclassifications more accurately represent revenue and expense activities in the categories presented on the statement of revenues, expense and changes in net position. These reclassifications had no effect on the change in net position.

p. Recent Accounting Pronouncements and Restatement

Correction of an error

During the preparation of the 2022 financial statements, the Association identified errors in the due to affiliate balance for amounts due to the University related to repayments of debt. The due to affiliate balance was understated and the transfers to University for debt service was understated by \$5.3 million, resulting in a reduction of loss reported in the 2021 financial statements. The Association's financial statements as of and for the year ending June 30, 2021 are being restated to reflect the correct value of due to affiliates, resulting in an increase in liabilities and reduction of unrestricted net position of \$5.3 million, and a reduction of contributions from related entities of \$5.3 million. The correction results in an additional decrease in net position for the year of \$5.3 million.

Adoption of new accounting standards

As of June 30, 2022 the following GASB Statements were implemented which had a financial or disclosure impact on the financial statements.

UNIVERSITY OF LOUISVILLE ATHLETIC ASSOCIATION, INC.
A Component Unit of the University of Louisville
Notes to Financial Statements
For the Years Ended June 30, 2022 and June 30, 2021

GASB Statement No. 87, Leases. This standard requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right-of-use an underlying asset. Under this standard, a lessee is required to recognize a lease liability and an intangible right-of-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The Association adopted the requirements of the guidance effective July 1, 2020 and has applied the provisions of this standard to the beginning of the earliest comparative period presented.

The statement of net position as of June 30, 2021 was restated to reflect the asset, liability, and unrestricted net position balances as stated with the effect of the adoption. Right-of-use assets representing the Association's future usage of leased assets of \$45.8 million, net of depreciation, current liabilities of \$2.8 million, noncurrent liabilities of \$43.7 million, and a reduction of net invested in capital assets in net position of \$0.6 million were established to illustrate the effect of recording leases where the Association is the tenant.

The following statements will be implemented in future reporting periods:

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and availability Payment Arrangements*. The objective of the pronouncement is to improve financial reporting related to public-private and public-public partnerships and availability payment arrangements. The Association has not yet adopted this standard and is evaluating the impact it may have on its financial statements.

GASB Statement No. 96, *Subscription Based Information Technology Arrangements*. This pronouncement defines subscription-based information technology and provides guidance on accounting for the resulting capital and intangible assets and associated cost. The Association has not yet adopted this standard and is evaluating the impact it may have on its financial statements.

GASB Statement No. 101, *Compensated Absences*. The statement updates the recognition and measurement guidance for compensated absences and amends certain previously required disclosures. The Association has not yet adopted the standard and is evaluating the impact it may have on its financial statements.

2. Cash, Cash Equivalents, and Investments

b. Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Association's deposits or collateral securities may not be returned. For administrative convenience, cash balances of the Association are included in bank accounts maintained by the University. Details of accounting transactions affecting cash are maintained in such a manner as to ensure an appropriate segregation of amounts maintained by each entity.

The University currently uses commercial banks and the Commonwealth as its depositories. Deposits with commercial banks are covered up to the limits of federal depository insurance or collateral held by the bank in the University's name. At the Commonwealth, the University's accounts are pooled with other agencies of the Commonwealth. These Commonwealth-pooled deposits are substantially covered by federal depository insurance or by collateral held by the Commonwealth in the Commonwealth's name.

Other long-term investments are insurance annuity policies at June 30, 2022 and 2021. The Association's investment policy does not address the monitoring of the issuing party.

c. Interest Rate Risk

Interest rate risk is the risk the Association may face should interest rate variances affect the fair value of investments. The Association's policy is to invest in U.S. government and U.S. government agency securities, commercial paper, bankers' acceptances, and variable rate demand notes with a maturity not greater than one year.

As of June 30, 2022 and 2021, the Association had no investments subject to interest rate risk.

d. Credit Risk

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. As of June 30, 2022 and 2021, the \$3.4 million, respectively, in investments held by the Foundation are considered pooled investments and not rated as to credit risk.

e. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer, excluding investments issued or explicitly guaranteed by the U.S government and investments in mutual funds, external investment pools and other pooled investments.

The asset allocation for investments held with the Foundation as of June 30, 2022 and 2021 is illustrated below:

	2022	2021
Investment in partnerships	54 %	50 %
Marketable alternatives	10 %	15 %
Mutual funds	21 %	19 %
Fixed income	11 %	10 %
Preferred and common stock	4 %	6 %
Total	100 %	100 %

The Foundation's investments do not have a significant concentration of credit risk within any industry or specific institution.

f. Foreign Currency Risk

This risk relates to adverse effects on the fair value of an investment from changes in exchange rates. The Association had no investments denominated in foreign currency at June 30, 2022 and 2021.

3. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The University categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements as of June 30, 2022 and 2021 (in thousands):

	2022

a. Investments

Investments within the University of Louisville Foundation, Inc. pooled investment fund consist of money market mutual funds, common and preferred stock, corporate bonds, mutual funds, investments in partnerships, funds of funds, U.S. Government securities and U.S. agency obligations. The Foundation has adopted a policy of maintaining a diverse investment pool through the use of targeted asset allocation guidelines. The fair value of the investments in the fund have been determined using the NAV per share (or its equivalent) of the investments.

4. Transactions with Related Organizations

a. University of Louisville

The Association has contracted with the University for certain administrative, operational, and maintenance services. During the years ended June 30, 2022 and 2021, the Association made no reimbursement per agreement with the University.

b. University of Louisville Foundation, Inc.

The Foundation is a separate corporation organized as a supporting organization of the University for the purpose of promoting the University's educational, scientific, literary and cultural interests through investment management. The Foundation serves in a fiduciary capacity and invests funds on behalf of the Association based on a formal trust agreement. As of June 30, 2022 and 2021, the Foundation held funds of the Association of approximately \$3.4 million, respectively, for investment purposes.

c. Debt with Related Entities

In April 2016, the Association received a \$15.0 million unsecured loan bearing interest at 2.5% from the University. The Association is obligated to repay the loan in equal semi-annual payments over 20 years. During the years ended June 30, 2022 and 2021, the Association repaid \$0.7 million in each respective year. The outstanding loan balance is \$10.9 million and \$11.6 million as of June 30, 2022 and 2021, respectively.

In December 2016, the University issued \$27.6 million of University of Louisville, General Receipts Bonds, 2016 Series F, which the proceeds along with debt service reserve funds and existing University funds were used to complete the current refunding of the Association's Louisville/Jefferson County Metro Government Mortgage Revenue Refunding and Improvement Bonds, 2008 Series A and B (mortgage revenue bonds). Additionally, the University issued \$50.7 million of University of Louisville, General Receipts Bonds, 2016 Series D and E to finance the expansion of Papa John's Cardinal Stadium and athletic training center. The proceeds of the Series D, E and F bonds were loaned to the Association. The Association entered into an agreement with the University for the Association to repay the bonds based on the bond repayment schedules. This liability is stated in current and noncurrent due to University of Louisville and deferred outflow of resources for related loss on refinancing. The outstanding loan balance and related cost due to the University is \$66.1 million and \$70.1 million as of June 30, 2022 and 2021, respectively.

As of June 30, 2022 and 2021, the Association has noninterest bearing debt with no specific repayment terms of approximately \$8.6 million with the University. The debt relates to \$8.6 million of expenditures incurred in fiscal years 1999 and 2000 during the construction Cardinal Stadium.

In January 1999, the Association received an \$8.5 million unsecured, noninterest bearing loan from the Foundation for the construction of Cardinal Park. The Association is obligated to repay the loan upon redemption of a life insurance policy pledged by a donor. The outstanding balance was approximately \$1.0 million as of June 30, 2022 and 2021.

d. Contributions with Related Entities

The University, during its annual budgetary process, agrees to transfer funds to the Association to assist with expenses related to retention and gender equality. The University transferred \$0.9 million and \$1.8 million, respectively, for the years ended June 30, 2022 and 2021 for this purpose. Additionally, the University collects certain fees from students designated for use by the Association. The University transferred \$0.9 million of student fees collected for the years ended June 30, 2022 and 2021.

The Association is the beneficiary of pledges related to certain capital projects, which are financed by the University, and as such, are recorded as assets of the University. The Association transfers cash received on these pledges, as well as other unrestricted funds to the University in order to fulfill the purpose of the gifts. The Association transferred \$3.9 million and \$4.3 million restated related to capital projects and debt service payments during each of the fiscal years ended June 30, 2022 and 2021, respectively.

7. Line of Credit

In April 2021, the Association entered into a \$20.0 million line of credit with a financial institution to fund the Association's working capital expenses. The line of credit is secured by collateral, including funding and revenues of the Association and third-party pledges to the Association. The line of credit converts to a 20-year note May 31, 2023 with principal and interest payments through April 30, 2043. The interest rate on the new loan is fixed at 2.93%. The balance of the line of credit is \$9.0 million as of June 30, 2022.

Association revenue is pledged for the payment of the term loan. For the current year, principal and interest paid by the Association and the total pledged revenue recognized were \$3.0 million and \$120.7 million, respectively.

Term Loan

In June 2014, the Association entered into a \$15.0 million Term Loan with a national banking association. The proceeds were used to partially finance renovation of the baseball and softball stadiums and construction of a soccer stadium (the Project). The loan is secured by collateral, including funds and revenues of the Association from the Project and third-party pledges to the Association for the Project. The variable interest rate on the Term Loan is the Daily One Month LIBOR rate plus 1.14%, reset on the last day of each month. This term loan was refinanced in June 2018 and replaced with a \$9.6 million term loan with substantially the same terms. The interest rate on the new note is the daily one month LIBOR rate plus 100 basis points. The balance of the term loan was \$11.0 million as of June 30, 2021.

In July 2019, the Association entered into a \$1.75 million note with a bank. The proceeds will be used to finance the renovation of the seats at the baseball and football stadiums. The loan is secured by the pledge and transfer to the bank of a security interest in the Association's deposits, monies, securities and other property now or hereafter in the possession of or on deposit with the bank. Principal will be repaid in seven annual installments of \$250 thousand commencing on June 30, 2020. The fixed interest rate on the term note is 3.6%. The balance of the term loan was paid in full as of June 30, 2021.

In April 2021, the Association refinanced the aforementioned term loans and the intercompany lease payable (see footnote 4 for additional discussion) for an \$11.0 million Term Loan with a financial institution. The loan is secured by collateral, including funds and revenues of the Association and third-party pledges to the Association. Principal repayments will begin May 31, 2023 as the note carries an interest only period ending on April 30, 2023. The interest rate on the new loan is fixed at 2.93%. The balance of the Term Loan is \$14.5 million as of June 30, 2022.

9. Leases

The Association leases land, operating and office facilities for various terms under long-term, non-cancelable lease agreements. The leases expire at various dates through 2067 and provide for renewal options ranging from one year to fifty years. The Association records right-of-use assets and lease liabilities based on the present value of expected payments over the lease term of the respective leases. The expected payments are discounted using the interest rate charged on the lease, if available, or are otherwise discounted using the Association's incremental borrowing rate. Variable payments are excluded from the valuations unless they are fixed in substance. Those variable payments are recognized as outflows of resources in the periods in which the obligation for those payments is incurred. During the years ended June 30, 2022 and June 30, 2021, respectively, the Association made variable payments as required by lease agreements totaling \$1.6 million and \$475 thousand. Certain facility leases provide for increases in future minimum annual rental payments based on defined increases in the Consumer Price Index, subject to certain minimum increases. The Association does not have any leases subject to a residual value guarantee.

12. Retirement Plan

Association and University personnel participate in a contributory retirement plan administered by the University. The University of Louisville 403(b) Retirement Plan (Retirement Plan) was established by the University and approved by the Board of Trustees. Permanent, full-time employees become eligible to participate in a defined contribution plan upon completion of one year's service and attainment of age 21. The Retirement Plan requires three years of continuous service for employees to vest in employer contributions.

From plan inception through April 30, 2020, eligible employees not contributing to the Retirement Plan were entitled to a 7.5% of base salary contribution on their behalf from the University and an additional match of 2.5% employee contributions. The University amended the Retirement Plan during the year and discontinued base salary and matching contributions from May 1, 2020 through July 30, 2020. Beginning August 1, 2020, base salary and matching contributions were reinstated with an amendment to the plan where eligible employees not contributing to the Retirement Plan are entitled to a 2.5% match of base salary and an additional contribution of 2.5%. Beginning February 1, 2021, the additional contribution was increased to 6.0%.

The Association recorded expenses related to the defined contribution plan of approximately \$2.2 million and \$1.3 million for the years ended June 30, 2022 and 2021, respectively. As of June 30, 2022 and 2021, the Association had no outstanding liability related to the Retirement Plan.

13. Post Employment Healthcare Benefits

a. Plan Description

University and Association personnel are eligible for post employment healthcare benefits as described in The University of Louisville Group Health Plan (Plan), administered by the University. The Plan is a single-employer plan and the University's Board of Trustees determines the eligibility requirements related to the Plan. The Plan does not issue stand-alone financial reports and is not included in the report of any entity.

To be eligible for the Plan, a retired employee must be the earlier of the attainment of age 60 with seven years of service in eligible faculty or staff status, or the date that the sum of the employee's age and years of regular service of not less than 80% full-time equivalent at the University equals or exceeds 75.

At July 1, 2021, the following employees were covered by the benefit terms.

Inactive plan members	1,586
Active plan members	4,701
Total	6,287

b. Funding Policy

The Plan is funded on a pay-as-you-go basis. The contribution requirements of the contributing members are determined by the University's management on an annual basis. During the years ended June 30, 2022 and 2021, the University contributed approximately \$2.2 million and \$2.1 million to the Plan, approximately 60% and 60% of total premiums, respectively. Retired Plan members under age 65 receiving benefits contributed approximately \$924 thousand and \$959 thousand, approximately 25% and 27% of total premiums for the years ended June 30, 2022 and 2021, respectively. Health plan rates remained unchanged for the year ended June 30, 2022. Retired Plan members made monthly contributions according to the rate schedule below.

	PPO		EPO		PCA High		PCA Low	
Employee	\$	364	\$	385	\$	306	\$	257
Employee and Spouse	\$	874	\$	924	\$	734	\$	617

Medicare-eligible retirees receive a monthly benefit of \$108 per individual covered. For the years ended June 30, 2022 and 2021, the University contributed \$2.2 million and \$1.9 million for Medicare-eligible retirees, respectively.

c. Annual Other Postemployment Benefit (OPEB) Cost and Net OPEB Obligation

The University's total OPEB liability was measured by an actuarial valuation as of June 30, 2021. The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation	2.25%
Salary Increases	5.00%, average
Investment rate of return	NA
Healthcare cost trend rates	6.4% for 2021, decreasing 0.10%-0.25% per year to an ultimate rate of 4.15% for 2034 and later years

The investment rate of return is shown as not applicable (NA) since the University contributes only the amount necessary to pay current benefits. The discount rate is 1.92% as of the Measurement Date, 2.45% as of the beginning of the Measurement Period.

A Component Unit of the University of Louisville
Notes to Financial Statements
For the Years Ended June 30, 2022 and June 30, 2021

The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's net OPEB obligation (in thousands):

	Total OPEB Liability
Balances at 6/30/2021	\$ 80,238
Changes for the year:	
Service cost	2,795
Interest	1,956
Differences between expected and actual experience	(458)
Changes of assumptions	4,967
Benefit payments	(3,558)
Net Changes	5,702
Balances at 6/30/2022	\$ 85,940

The following reflects the sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rate. The schedule below presents the University's OPEB liability, as well as what the University's OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate (in thousands):

	1% Decrease (0.92)%	Discount Rate (1.92)%	1% Increase (2.92)%
Net OPEB liability	\$ 96,719	\$ 85,940	\$ 76,935

The schedule below presents the University's OPEB liability, as well as what the University's OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1 percentage point lower (5.4% for 2021, decreasing 0.10%-0.25% per year to an ultimate rate of 3.25% for 2033) or 1 percentage point higher (7.4% for 2021, decreasing 0.10%-0.25% per year to an ultimate rate of 5.25% for 2033) than the current healthcare cost trend rate (in thousands):

	1% Decrease (5.4)%	Healthcare Cost Trend Rates (6.4)%	1% Increase (7.4)%
Net OPEB liability	\$ 82,316	\$ 85,940	\$ 90,197

For the year ended June 30, 2022, the University recognized OPEB expense of \$2.7 million. At June 30, 2022, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,151	\$ 3,651
Changes of assumptions	11,732	17,525
Contributions made in fiscal year ending 6/30/2022 after the measurement date of 6/30/2021	3,684	—
Total	\$ 16,567	\$ 21,176

The amount reported as contributions after the measurement date included in deferred outflows will be recognized as benefit payments during the following fiscal year.

Notes to Financial Statements
For the Years Ended June 30, 2022 and June 30, 2021

Amounts reported as differences between expected and actual experience and changes in assumptions included under deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

Year ended June 30:		
2023	\$	(2,032)
2024		(2,032)
2025		(2,032)
2026		(1,615)
2027		(1,515)
Thereafter		933
Total	\$	(8,293)

d. Funded Status and Funding Progress

As of June 30, 2021, the most recent actuarial valuation date, the plan was 0% funded. The unfunded OPEB liability for benefits was \$85.9 million and \$80.2 million and there were no assets, resulting in an unfunded net OPEB liability of \$85.9 million and \$80.2 million as of June 30, 2022 and 2021, respectively. The covered payroll (annual payroll of active employees covered by the plan) was \$434.9 million and \$490.2 million, and the ratio of the unfunded net OPEB liability to the covered payroll was 20% and 16%, for the years ended June 30, 2022 and 2021, respectively.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

e. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2021, actuarial valuation, the entry age normal actuarial cost method was used. The actuarial assumptions included an annual healthcare cost trend rate of 6.4% initially, reduced by increments to an ultimate rate of 1.92% after 13 years. The increase in the benefit obligation recognized during the fiscal year ending June 30, 2020 was due to a change in the discount rate from 2.45% as of the beginning of the reporting year to 1.92% as of the measurement date, and updates to the retirement rates, participation rates and health care trend rates. The gains on the benefit obligation recognized during the fiscal year ended June 30, 2021 was due to updates made on expected future health claims and an increase in the discount rate from 2.45% as of the beginning of the reporting year to 1.92% as of the measurement date, and changes in the assumed per capita cost.

14. Commitments

At June 30, 2022 and 2021, the Association had approximately \$6.7 million and \$0.2 million, respectively, in encumbrances for future expenditures.

a. Litigation

While the Association is a party to various legal actions and other claims in the normal course of business, there are no legal actions against the Association at this time.

b. NCAA Investigation

The University received a Notice of Allegation from the NCAA on May 4, 2020 as a result of information obtained during the federal criminal charges against former Adidas representatives, and the subsequent investigation. A number of other university athletic programs with Adidas contracts similarly received a Notice of Allegation from the NCAA. The outcome of the NCAA's allegations against the University and the future impact on the financial position of the Association cannot be estimated at the time of issuance of the audited financial statements.
