

Making A World Of Difference In Healthcare

Learning Objectives

- Describe the cultural beliefs, values, perceptions and health practices of varying diverse populations, and strategies that promote cultural sensitivity for enhanced healthcare delivery and improved patient outcomes
- Discuss the origins of Remote Area Medical (RAM) and describe basic demographics and types of assistance offered by RAM programs
- Explore facts, myths and special needs of people with disabilities
- Discuss the impact of stereotyping through nonverbal communication and perceptions of race, gender and socioeconomic status on healthcare delivery
- Describe socioeconomic, educational and neighborhood characteristics as the root causes of health disparity and illness
- Discuss the disproportionate distribution of poor health outcomes among racial minorities
