

Learning Objectives:

- Introduce students to cultural issues with the Mennonite community
- How to work effectively with LGBT patients
- Overview of the role and relevance of the tort system in shaping cultural competencies
- To sensitize students to the day-to-day realities of life faced by people with low incomes and the barriers they will encounter to life situations and healthcare
- A practical approach to caring for patients who engage in non-traditional sexual practices. What every medical provider needs to know
- Expose students via case scenarios to treatment considerations for a diverse dental patient base
- Cultural Competency in nursing care
- Define Cultural Competency in Global Health
