

# RACIAL CONFLICTS AND THE IMPACTS ON OUR HEALTH:

Police shootings of unarmed black and Latino men by white officers, deaths of men and women of color while in jail for minor offenses, removal of the confederate flag from state capitals and subsequent protests held by the KKK and other white supremacy groups are just a few of the weekly and sometimes daily news reports regarding racial conflicts in the U.S.

Are these conflicts increasing and what are the impacts on our society and our health?

---
