

COMPASSION FOR **ALL** IN HEALTHCARE:

What if the “Healthcare System” had a chance to talk? What would it say as it struggles to shift in order to infuse the tenets of the Triple Aim (better care for individuals, better health for populations and lower per capita costs)? When is there time to talk about compassion when the healthcare system is so stressed?

DIVERSITY & INCLUSION LUNCH & LEARN

Featuring guest speakers:

Robin Youngson, MD, Anna C. Faul, PhD, and Joseph G. D’Ambrosio, JD, PhD, LMFT

Join us for a therapeutic session with our guest speakers who will conduct a therapeutic session with the “Healthcare System”. The session will include a psychodrama and a deconstruction component and audience members are expected to participate. This will be your time to be co-therapists” and ask the “Healthcare System” those questions that remain silenced either because you have no answers or are afraid to rock the boat. We will search for compassion and see if it is hiding in places that we don’t normally recognize. In order to have COMPASSION FOR ALL it is necessary for us to understand where healthcare is situated today and where we are going in the future. This session will help guide us to a more compassionate health care system that not only achieves the Triple Aim but also embraces what we like to call the “fourth aim” of caring for the healthcare workforce.
