

Julie W. Hohmann  
Coordinator,  
REACH Learning Resource Center

### **REACH Learning Resource Center Critical Thinking Project: Learning Outcomes**

At the end of the semester students:

- Should be able to regularly practice and apply the Intellectual Standards to the Elements of Thought in order to:
  - raise vital questions and problems
  - gather and assess relevant information, using abstract ideas to interpret it effectively

At the end of the semester tutors:

- Apply questions of the Intellectual Standards in their conversations with students, especially to develop their students' ability to:
  - Raise vital questions and problems
  - gather and assess relevant information, using abstract ideas to interpret it effectively
- Able to assess their students' critical thinking.
- Will have supported their students' development of Intellectual perseverance and autonomy throughout weekly tutoring sessions.
- Developed and enhanced their own ability to foster critical thinking in others.
