

KY MANUFACTURING
EXTENSION PARTNERSHIP

Success Story: Aspen Compressor, LLC

Quality Management Systems

COMPANY PROFILE

Aspen Compressor, LLC in Somerset, KY, is the world's pioneer of miniature rotary refrigeration compressors. They manufacture highly reliable, US-made, premium-quality, miniature rotary compressors.

SITUATION

In order to supply their diverse offerings of industry leading, original rotary compressors, Aspen Compressor was required by major customers to achieve ISO 9001 Certification.

KY-MEP's SOLUTION

KY-MEP provided a pre-assessment of the operation to determine gaps and necessary steps to achieve certification. KY-MEP was on site for several days guiding and coaching staff in establishing and implementing compliant ISO processes and procedures. KY-MEP also provided additional on-site and off-site support as needed to ensure Aspen Compressor had the necessary support to be ready for their certification audit.

"I knew nothing about ISO 9000 until I had the training provided by KY-MEP. Our trainer was very knowledgeable. He provided us the forms we used to put together our system. He was available when we needed him."

- Michael Overby, Quality Manager, Aspen Compressor, LLC
