Etiquette Program through OPD

Event on 10/28- tentatively scheduled (Dress Program- clothing vendors coming in to give professional clothing advice)

SBA will need to contribute \$60

Wine 101 Event on 11/11- beings at 2:00 at Vines (Dean Hajek's husband's shop)

SBA will contribute \$200 per session to supplement cost

Each student will have to contribute \$10 on their own

20-25 individuals per session

Connor Cafferty concern: most of our events are around drinking. When our OPD events center around drinking, the optics should be considered

Matthew- it arose from feedback from students to OPD after their summer internship experiences.

Connor- I agree with the reasoning, but we need to consider diverse backgrounds, particularly those who do not regularly drink.

Samantha Wright- this event is separate from etiquette programs and other events.

Lindsay Ratliff- I agree with the criticism. We have a lot of commentary about all of our events center around alcohol. We need to all consider solutions and bring to the next meeting.

Addison- part of wine etiquette stems from client interaction in practice.

Two events in the spring

- 1 lunch and other will be a large payment that will mirror Live LinkedIn

Proposing constitutional amendment

Adding a social committee

- Social chair will head the committee
- Class representatives will serve and assist in social chair duties.

Would like other members to be involved in larger decisions instead of polling whole student body

Corey Thomas

Been working w/ Cash on amendments to address changes that were identified as required by SGA supreme court

- Change in mission statement
- Change in "Time and Place"
- Change in "Elections Committee"
- Change in "Voting"
- Change in "Amendments" process

Cash Collins

- Change in Article X Amendments
- Change in Elections - goal was to allow Assembly to remain flexible

Old timeline for SGA campaigning- posted on OrgSync by Cash

Only President and VP will be allowed to run on a slate together

The more we are involved in SGA, the more impact we will have on what happens within our own school. Moving up our elections to be on schedule with SGA's would allow us to be more involved with SGA decisions.

Corey Thomas- further discussion

If you find something you like in one amendment to supplement another, suggest hybrid amendments (comparing Corey Thomas and Cash Collins amendments).

Logan Wood- as one who previously did not know much about SGA, law students did not know much about SGA operations. We were starting from behind by not having our elections in line with SGA's.

Our previous lack of involvement keeps us out of the loop of their decisions.

Connor Cafferty- with all the demand of SGA, is it enough to just have the president and SGA rep as a presence?

Cash- we are statutorily limited. But they do value our opinions when we contribute.

Proposed Changes will be on: OrgSync. Will likely be posted again after proposed changes are added after next SBA meeting.

Committee Time- 10 minutes

Meeting adjourned
