

# EMPOWERMENT

Series @ The Planetarium

## Making & Shaping History

This unique program is designed to educate, inspire and empower us to make and shape history. **360 degree clips featuring #BLM/stopping the violence events from around the country will be shown on the dome.** Post-screening discussion will provide participants with an array of opportunities to make and shape history within whatever means available—whether it be time, money, and/or day-to-day interactions.

Immediately following each planetarium screening is the Speed Cinema screening of the award-winning film *"I Am Not Your Negro."* The Oscar-nominated documentary about James Baldwin takes viewers on a journey through history starting with the Civil Rights movement to the present day #BlackLivesMatter (#BLM) movement.

### FEBRUARY 2017

2 PM Showings: February 18, 19, 25 and 26

6 PM Showings: February 17, 18 and 24

*"It is impossible to convey the power and impact that 360 degree virtual reality programming has when shown in the dome - you have to experience it in person."* Chie Davis, Video Reporter, Louisville Courier-Journal

#BLM virtual reality screenings at the planetarium are free and open to the public.
