

Third Annual Caring for Adults with IDD Conference 11/4/2017

This activity was created to address the professional practice gaps listed below:

- Identifying the causes of intellectual and developmental disability.
- Utilizing telehealth to address the needs of the medically underserved population of adults with intellectual and developmental disability.
- Diagnosing and treating the oral health needs of individuals with intellectual and developmental disability.
- Recognizing gaps that are occurring in the transitioning of care of individuals with neurodevelopmental disability from pediatric to adult healthcare providers.

1. Please respond regarding how much you agree or disagree that the gaps listed above were addressed.

| | Disagree | | Agree | |
|---|----------|--------------|---------------|---------------|
| Participating in this educational activity changed your KNOWLEDGE in the professional practice gaps listed above. [17-3.53] | (0) | (0) | (8) 47.06% | (9) 52.94% |
| Participating in this educational activity changed your COMPETENCE in the professional practice gaps listed above. [16-3.50] | (0) | (0) | (8) 50.00% | (8) 50.00% |
| Do you feel participating in this educational activity will change your PERFORMANCE in the professional practice gaps listed above? [16-3.44] | (0) | (1) 6.25% | (7) 43.75% | (8) 50.00% |

2. Please elaborate on your previous answers. (10)

I would LOVE to be THE RN in my clinic to participate in the Telehealth /Telepack MD!!

I am an occupational therapist and while a lot of the information was very informative, it would have been helpful to have some sensory-related topics discussed that I could apply in practice.

I felt overall the conference was informative and presented information I can use in my current line of work.

I have years of experience in DD nursing; especially appreciated the dental session; based on what I heard during the primary care breakout session, it really appears urgent that we develop and activate realistic action plans for improved IDD health care while we continue to educate our colleagues.

n/a

I am now more aware of the resources available locally for my patients with combined intellectual & physical disabilities.

I am a Registered Nurse and a parent of a adult child with intellectual and developmental disabilities and he is also medically fragile. I have an increased knowledge and completely get the problems we face with transitioning of care, the need for oral healthcare, and that this population is definitely most underserved.

The interdisciplinary nature of the multiple presentations brought valuable and diverse perspectives to the table.

Very informative

3. Please evaluate the effectiveness of the following speaker(s) you were exposed to in improving your knowledge, competence and/or performance. (Poor = 1, Excellent = 4)

| | Poor | Fair | Good | Excellent |
|---|------|---------------|---------------|----------------|
| Elisha Acosta, MD [15-3.53] | (0) | (0) | (7) 46.67% | (8) 53.33% |
| Heather Bass, PsyD [14-3.43] | (0) | (1) 7.14% | (6) 42.86% | (7) 50.00% |
| Robyn Brandenburg, MS, CCC, SLP [13-3.54] | (0) | (1) 7.69% | (4) 30.77% | (8) 61.54% |
| Priya Chandan, MD, MPH [13-3.69] | (0) | (0) | (4) 30.77% | (9) 69.23% |
| Kristin Compton, DMD [16-3.81] | (0) | (0) | (3) 18.75% | (13) 81.25% |
| Steve Foreman, BCBA [14-3.50] | (0) | (1) 7.14% | (5) 35.71% | (8) 57.14% |
| Jim Hisle, PTA [13-3.54] | (0) | (1) 7.69% | (4) 30.77% | (8) 61.54% |
| Matt Kinney, MD [12-3.58] | (0) | (0) | (5) 41.67% | (7) 58.33% |
| Megan Jaspersen, MS [12-3.58] | (0) | (0) | (5) 41.67% | (7) 58.33% |
| Krysta Manning, DMD [12-3.50] | (0) | (0) | (6) 50.00% | (6) 50.00% |
| Lindsey Catherine Mullis, MS [12-3.58] | (0) | (0) | (5) 41.67% | (7) 58.33% |
| Jim Powell, MD [15-3.60] | (0) | (0) | (6) 40.00% | (9) 60.00% |
| Paula Robinson, MD [14-3.50] | (0) | (0) | (7) 50.00% | (7) 50.00% |
| Michael Sowell, MD, FAHS [16-3.44] | (0) | (2) 12.50% | (5) 31.25% | (9) 56.25% |

4. Please elaborate on your previous answers. (11)

I lead one of the discussion groups, so did not interact with other workshops.

Collaborative effort in breakout sessions with all these individuals

It would have been helpful to have some videos associated with the neuroscience lecture.

Presenters did a wonderful job. I had difficulty staying alert during the neuroscience presentation.

I really appreciated the opportunity to participate via webinar. Perhaps a bit more orientation of breakout session leaders related to inclusion of webinar participants would

have been helpful. For me, in all sessions, the camera remained in one spot. You might want to consider a camera set up that auto-rotates to the person speaking at any given time.

N/A

highly qualified, competent individuals

Information from the dental & physical therapy staffs was particularly useful.

Very Knowledgeable and interesting speakers.

Knowledgeable speakers

very knowledgeable speakers

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.) (12)

Transitioning individuals and teaching/preparing my families in waiver programs from pediatricians to adulthood

I feel a bit more comfortable with handling challenging behaviors after attending the breakout session.

Observing more how assistive technology can be incorporated with all disciplines.

Pending.

I would allow for more hands on activities

identification of dental issues in IDD

More thorough in dental exam

Be more aware of dental issues in adults with disabilities & refer routinely for appropriate dental care.

Find out what works best for the patient/client and use that knowledge in your care.

I intend to evaluate the cost effectiveness of portable tele-health technology.

For informational purposes

N/A

6. How certain are you that you will implement this change?

(13)

Very Certain ⁽⁴⁻
30.77%)

Not Certain ⁽¹⁻
7.69%)

Certain ⁽⁴⁻
30.77%)

Maybe ⁽³⁻
23.08%)

N/A ⁽¹⁻
7.69%)

7. What topics do you want to hear more about, and what issues(s) in your practice will they address? (10)

Funding and /or teaching of current MDs in practice for IDD population and dentists too

Sensory related issues.

Sexuality, more topics of how to transition folks from IDD setting into residence setting.

Dental, community-based preventive medicine, health promotion

Changes in funding for programs such as CLS or ADT

would love to hear more about behavioral therapies/interventions

Management of behavioral issues in these adults.

Transitioning from pediatrics to adult and more about telehealth

Obesity, glycemic status in patients with IDD.

local resources in Southern Indiana as well/unable to utilize Lee's Clinic/not on Michelle P. waiver due to be Indiana resident/Medicaid

8. Were the patient recommendations based on acceptable practices in medicine?

(15)

Yes ⁽¹⁵⁻
100.00%)

9. If you answered No on the question above, please explain which recommendation(s) were not based on acceptable practices in medicine? (1)

n/a

10. Do you think the presentation was without commercial bias?

(13)

Yes ⁽¹²⁻
92.31%)

No ⁽¹⁻
7.69%)

11. If you answered No on the above question, please list the topics that were biased? (2)

The assistive technology session was, by its nature, focused on a particular equipment company's product.

n/a

12. Please provide any additional comments you may have about this educational activity. (7)

Enjoyed this conference and look forward to what future conferences may hold.

It was great to be able to join this event online. Realizing how much work was involved to pull this off, my sincere kudos to all who made it happen! Thank you!

the room could have been warmer

like the webinar aspect

The publicity for this event was terrible. The attendance at the meeting suffered as a result of that. I did not receive any local notification about this meeting. Additionally emails should have been sent out explaining where to park. Roads were closed around the meeting making parking very terrible and confusing. Most meetings I go to I receive an email the week before explaining logistics and other housekeeping items.

Very informative - I would attend again. Thank You!

informative/enjoyed the presentations/ Thank you for lunch!

As one of the participants of this educational activity, we want to encourage you to implement those ideas that were appropriate to your healthcare environment.

This evaluation is confidential and no individual will be identified by this office (Continuing Medical Education and Professional Development). It will only be used for quality improvement.

We look forward to seeing you at future University of Louisville events. Thank you very much.
