

Neuro-Oncology Symposium 2019:

Advanced Treatment Paradigms of Meningioma

Saturday, July 27, 2019

8 am - 4 pm

Frazier Rehab Institute

15th Floor Boardroom

220 Abraham Flexner Way, Louisville, KY 40202

Meningioma is the most common type of tumor that forms in the head, and although 85 percent of diagnosed meningiomas are categorized as benign, these tumors still cause side effects and issues for the patient. In this course, experts in meningioma diagnosis and treatment will provide updates in the latest treatment options for meningioma and cover risk factors and indicators for treatment. Neurosurgeons, neurologists, radiologists, oncologists, radiation oncologists, primary care providers, nurses and patients are encouraged to attend.

AGENDA

- 8:00 am** Nursing Perspective for Treatment of Meningioma
Alexandra Schaber, APRN
Brain Tumor Program
Department of Neurological Surgery, UofL
- 9:00 am** Evolution of Radiology with Meningioma
Robert Bert, MD, PhD
Associate Professor, Department of Radiology, UofL
- 10:00 am** Treatments of Meningioma
