(9)  
Yes (9-  
100.00%)

If you answered 'NO' to the above question, and if you believe there were commercially biased speakers/presentations, please list any you can recall.

### 3. Please rate:

	Poor	Fair	Good	Excellent
The overall quality of this RSS program. [9-3.56]	(0)	(0)	(4) 44.44%	(5) 55.56%

4. Based on your educational needs and medical practice gaps, please suggest topics and/or speakers for future RSS programming in this medical discipline.

(6)

I would love to see more outside speakers come in to our department

cardiac anesthesia

updated guidelines and recommendations

basic scientists with data that is being translated to clinical applications

TEE

Would love to have more discussions on PoCUS

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.)

(7)

new management techniques

new protocols

Pt care

dosing of ketamine for perioperative pain, management of adverse outcomes

more continuous infusions, multimodal analgesia....

Trauma Transfusion and temperature management

too many to list. Most recently discussed was the use of Ketamine for acute pain. I will use the dosing guidelines that were presented in my practice.

6. Please list any additional comments you may have about this educational activity.

(2)

N/A

As one of the participants in this RSS program, we want to encourage you to implement those ideas that were appropriate to your healthcare practice environment.

This evaluation data is confidential, and no individual will be identified by the office of Continuing Medical Education and Professional Development.

This data will only be used for quality assessment and improvement of future CME courses. Thank you very much.
