	Poor	Fair	Good	Excellent
The overall quality of this RSS program. [3-3.33]	(0)	(0)	(2) 66.67%	(1) 33.33%

4. Based on your educational needs and medical practice gaps, please suggest topics and/or speakers for future RSS programming in this medical discipline.

(2)

Improvements in healthcare financing for cancer care Consideration of talks regarding benign hematology issues Greater depth of molecular talks to JUSTIFY the use of certain expensive technologies (such talks should provide the framework for SOPs regarding the use of molecular diagnostics)

more outside speakers

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.)

uptodate management, awareness about new available clinical trials, These programs help me better educate my patients.

6. Please list any additional comments you may have about this educational activity.

(1)

Literature review should be available online for each talk to amplify the concepts and as a record of the events The lectures should be recorded and available online

As one of the participants in this RSS program, we want to encourage you to implement those ideas that were appropriate to your healthcare practice environment.

This evaluation data is confidential, and no individual will be identified by the office of Continuing Medical Education and Professional Development.

This data will only be used for quality assessment and improvement of future CME courses. Thank you very much.
