 Breast cancer
 knowledge of treatments for various types of cancer
 New standards for patient care and treatment
 Appreciate Path Slides and Stains

2. Do you think the topics in this RSS program were presented without commercial bias or a conflict of interest?

(6)
 Yes (6-100.00%)

If you answered 'NO' to the above question, and if you believe there were commercially biased speakers/presentations, please list any you can recall.

3. Please rate:

	Poor	Fair	Good	Excellent
The overall quality of this RSS program. [6-3.83]	(0)	(0)	(1) 16.67%	(5) 83.33%

4. Based on your educational needs and medical practice gaps, please suggest topics and/or speakers for future RSS programming in this medical discipline.

(4)

Breast

Nuclear Medicine physician to explain the limitations of PET/CT for various types of cancers.

Dr Kelly McMasters melanoma

Topics in differentiating different Lymphomas

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.)

(4)

Screening

Standardizing imaging reports for easier understanding by referring clinicians.

Ultrasound of axillary lymph nodes in Breast Cancer

Education Patient better in treatment options

6. Please list any additional comments you may have about this educational activity.

(4)

Extremely knowledgeable pathologist, surgeons and oncologists willing to teach during the presentation of cases.

The best conference we have !

Enjoy going to this program. I have worked as a bedside RN for 37 years and have taken care of many cancer patients. I don't think I really understood the complexity in diagnosing a patient with cancer until I started participating in this program.

I appreciate proximity to office and work; and assist with local patient care.

As one of the participants in this RSS program, we want to encourage you to implement those ideas that were appropriate to your healthcare practice environment.

This evaluation data is confidential, and no individual will be identified by the office of Continuing Medical Education and Professional Development.

This data will only be used for quality assessment and improvement of future CME courses. Thank you very much.
