Participating in this RSS program changed my PERFORMANCE. [1-4.00]	(0)	(0)	(0)	(1)100%

If you agree, please list one or more areas of your improved knowledge, competence or performance.

(1)

By attending the UofL Gut Club, I am able to keep abreast of new knowledge, which helps me improve my knowledge, competence and competence. There is robust discussion and I can ask questions, in the UofL Gut Club, which helps me improve in all ways more than just reading articles or participating in other educational formats.

2. Do you think the topics in this RSS program were presented without commercial bias or a conflict of interest?

(1)

No (1-100.00%)

If you answered 'NO' to the above question, and if you believe there were commercially biased speakers/presentations, please list any you can recall.

3. Please rate:

	Poor	Fair	Good	Excellent
The overall quality of this RSS program. [1-4.00]	(0)	(0)	(0)	(1)100%

4. Based on your educational needs and medical practice gaps, please suggest topics and/or speakers for future RSS programming in this medical discipline.

(1)

continue same

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.)

(1)

Just to name a few- i learnt the new guidelines for C diff infection, state of the art management of alcoholic liver diseases including liver transplant option, recognition and management of afferent limb syndrome etc

6. Please list any additional comments you may have about this educational activity.

(1)

Excellent CME activity. I hope this meeting will reach an even greater audience. The material presented and discussed will directly improve management and outcomes of GI patients.

As one of the participants in this RSS program, we want to encourage you to implement those ideas that were appropriate to your healthcare practice environment.

This evaluation data is confidential, and no individual will be identified by the office of Continuing Medical Education and Professional Development.

This data will only be used for quality assessment and improvement of future CME courses. Thank you very much.
