If you agree, please list one or more areas of your improved knowledge, competence or performance.

(2)

This conference is very helpful in taking care of individual patients. All the treatment concepts including surgery medical oncology and radiation oncology are discussed. This is our best conference at Taylor Regional Hospital and helps us and taking care of complex cancer patients.

General cancer knowledge over the course of the year was valuable. Occasionally case management was benefitted by our tumor board discussions.

2. Do you think the topics in this RSS program were presented without commercial bias or a conflict of interest?

If you answered 'NO' to the above question, and if you believe there were commercially biased speakers/presentations, please list any you can recall.
