

Prevention & Treatment of Hepatitis and Chronic Liver Disease

Louisville, Kentucky – March 4, 2023

Conference Location **Kosair Charities Clinical & Translational Research Building**
Classroom 101 and 102
 505 S. Hancock Street
 Louisville, Kentucky 40202

<https://louisville.edu/predictivemedicine/about/map-to-clinical-translational-research-building>

Parking at the Conference There are parking lots for both the CTR building and the adjacent Health Science Center garage. There is also on-street, metered parking on all roads surrounding the CTR Building.

The Clinical & Translational Research (CTR) Building is located at the corner of Hancock Street and Mohammed Blvd adjacent to the campus of the University of Louisville School of Medicine. The seminar will be held in the classroom on the First Floor

Driving Directions

Seminar Agenda and Syllabus Information Registration begins at **7:30 a.m.** in the foyer outside Classroom 101

The Hepatitis and Chronic Liver Disease seminar is a paperless program. The course syllabus and related materials will be made available on a digital app that can be accessed by a smart phone, tablet or personal computer. Instructions to download the App will be provided. Wi-Fi will be available without charge.

Pre-Program Activities	Pre-Lecture 1 – Viral Hepatitis –A summary for discovery and natural history of HCV 60 min Pre-Lecture 2 - End Stage Liver Disease: An overview of Treatment, Managing Complications chronic liver disease, cirrhosis, and the transplant process – 45 min
7:30 am	<i>Registration and View Exhibits</i>
8:00 am	Opening Comments and Pre-Test
8:20 am	Review of Viral Hepatitis –HCV <ul style="list-style-type: none"> • Highlight of Pre-Lecture 1 • Screening and Treatment of HCV Clinical Cases and Discussion
9:00 am	Hepatitis B: Epidemiology, Natural History and Testing <ul style="list-style-type: none"> • The epidemiology of the Hepatitis B infection • Efficacies and opportunities in HBV testing and vaccination

	<ul style="list-style-type: none"> • Anti-viral therapies of HBV • The growing relationship between HBV and HDV
9:30 am	<i>Product Theater # 1 Break and View exhibits</i>
10:00 am	Delta Hepatitis and Hepatitis E Update <ul style="list-style-type: none"> • Worldwide perspective and promising research studies • Real world outcome studies on HDV and HEV
10:35 am	End Stage Liver Disease: Recap and Clinical Cases <ul style="list-style-type: none"> • A review of Pre-course lecture on end-stage liver disease • Clinical cases to illustrate HE and Thrombocytopenia
11:10 am	Hepatocellular Carcinoma (HCC) <ul style="list-style-type: none"> • Screening diagnostic serum assays and imaging tests • Treatment and management options: Ablation, TACE and Surgery •
11:45 am	Hepatocellular Carcinoma: New Systemic Treatment Options <ul style="list-style-type: none"> • A case-based approach to HCC treatment • Current FDA-Approved Therapies • New chemotherapy regimens in development and testing Immunotherapy as the new MoA for HCC
12:15 pm	<i>Luncheon and Industry Presentation #2</i>
1:00pm	<i>Dessert and View Exhibits</i>
1:10 pm	Cholestatic Liver Disease: Primary Biliary Cholangitis and Primary Sclerosing Cholangitis (PSC) <ul style="list-style-type: none"> • Epidemiology of PSC and Ursodiol and Antibiotic Treatments • Predicting outcomes and Improving Survival in PSC patients • Causes and Markers of PBC Ursodeoxycholic Acid (UDCA) and Obeticholic Acid
1:50 pm	Alcohol Associated Liver Disease <ul style="list-style-type: none"> • The growing prevalence of alcohol over-consumption and its impact on liver health Warning signs and intervention in alcohol-associated hepatitis
2:20 pm	Fluid Management, Ascites and Hepatorenal Syndrome <ul style="list-style-type: none"> • The diagnosis and treatment of ascites • How cirrhosis can lead to portal hypertension, ascites, kidney disease and hepatorenal syndrome • New and emerging treatment approaches for of HRS
2:50 pm	<i>Break & View Exhibits</i>
3:00 pm	NAFLD and NASH <ul style="list-style-type: none"> • Epidemiology, Demographics and Diagnosis • Scoring, Staging and Management of Fatty Liver Disease • Treatment options for thrombocytopenia; including alternatives to platelet transfusion.
3:30 pm	NASH Treatments in Practice and in Development <ul style="list-style-type: none"> • Current therapies for NASH including Updates from AASLD and EASL • Lifestyle changes as a therapy Drugs in clinical development for NASH
4:10 pm	Closing Comments, Post-test and Wrap-Up Program adjourns at 4:30 pm
Post-program activities	Lecture 3 - SARS-CoV-2 and its Effect on the Liver – 45 minutes Lecture 4 - Overcoming barriers to liver health in special populations - 45 minutes

Attendance Policies**Attendee Cancellation, Substitution, Refund**

The course tuition is refundable, minus a \$20 processing fee, if your cancellation is received in writing no later than seven days prior to the conference. Attendee substitutions are allowed, but notification must be made in writing seven days prior to the conference. After that date, no refunds, credits, or substitutions will be granted. No refunds or credits will be given to those who “no show.”

Recording and Photography

The University of Louisville reserves exclusive rights to record (audio and video) and/or photograph conference proceedings for use in marketing materials, future presentations and other purposes.

Guest Attendance

All conference activities (including educational sessions, meal functions, exhibit hall participation and others) are exclusively reserved for seminar participants. Non-registered guests (including children, family members, colleagues and others.) are not permitted in the seminar areas.

Conference Modification or Cancellation

The University of Louisville and SC Liver Research Consortium reserve the right to modify the course’s schedule, faculty or content if necessary. They also reserve the right to cancel this seminar, and in the unlikely event, a full refund of the registration fee will be provided. We are unable to refund any travel costs (flight, hotel, etc.) in the case of a seminar cancellation.

CME Information

Physicians (MD/DO) - The University of Louisville Office of Continuing Medical Education & Professional Development designates this live activity for a maximum of **10.0 AMA PRA Category 1 Credit(s)TM**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses - This program has been approved by the Kentucky Board of Nursing for 12.0 continuing education credits through University of Louisville Hospital, provider number 4-0068-12-22-1264. The Kentucky Board of Nursing approval of an individual nursing education provider does not constitute endorsement of program content.

Nurse Practitioners and Physician Assistants - AANP and AAPA accept Category I credit from AMA PRA Category 1 Credit(s)TM organizations accredited by ACCME.

Your Seminar Faculty**CRAIG McCLAIN, MD**

Craig J. McClain, M.D., is an internationally distinguished clinician and scientist in the fields of gastroenterology, hepatology, alcohol abuse, nutrition, cytokine research, and hepatic drug metabolism. He is a Professor of Medicine at the University of Louisville School of Medicine.

Dr. McClain has made many seminal contributions to the field. In an early influential study published in the Journal of the American Medical Association (JAMA) in 1980, he described the deleterious interactions in the liver between alcohol and acetaminophen. In another landmark study, published in the journal Hepatology in 1989, Dr. McClain was the first to describe dysregulated cytokines in alcoholic hepatitis. This ground-breaking study is the second most cited liver pathobiology article in Hepatology over the past 25 years. Dr. McClain’s leadership also extends to a variety of organizations and NIH committees. He is Past President of the American College of Nutrition and was the first physician member of the NIH Peer Review Advisory Committee (PRAC). He also served on the National Advisory Council on Alcohol Abuse and Alcoholism and on the NIH Council of Councils.

**MATTHEW C. CAVE, MD**

Dr. Matthew Cave is an Associate Professor of Medicine at the University of Louisville’s School of Medicine. He also has joint appointments at Louisville’s Department of Pharmacology and Toxicology, the Department of Biochemistry and Molecular Genetics and has an academic appointment at the Robley Rex Veterans Affairs Medical Center in Louisville, Kentucky.

Dr. Cave is active in many professional societies including: the American Gastroenterological Association (AGA); American Association for the Study of Liver Diseases (AASLD); the Kentucky Medical Association and the Southern Society for Clinical Investigation. Dr. Cave has been published extensively in esteemed medical journals and has written or collaborated on many medical texts.

ASHUTOSH J. BARVE, MD, PhD

Dr Barve is a Professor of Medicine and the Director of the Liver Cancer Program at the University of Louisville School of Medicine. Board certified in both Internal Medicine and Gastroenterology, Dr. Barve received his medical degree from Seth G.S. Medical College and King Edward Memorial Hospital in Mumbai, India and his PhD degree from the University of Kentucky.

His clinical areas of interest include liver cancer, transplant hepatology, therapeutic endoscopy and colon cancer screening. Dr. Barve is involved in a variety of clinical research projects, a frequent author on in noted journals and publications on liver disease and is active in AASLD..

LORETTA L. JOPHLIN, MD, PhD

Dr. Loretta Jophlin completed both her MD and Ph.D. degrees at the Medical University of South Carolina (MUSC) in Charleston, South Carolina where she was awarded an NIH NHLBI F31 Ruth L. Kirschstein National Research Service Award. She did her internal medicine residency at the Mount Sinai Hospital in New York City. She completed her gastroenterology and hepatology fellowship at MUSC, where she was also awarded an NIH F32 Ruth L. Kirschstein National Research Service Award for postdoctoral research in liver disease and cirrhosis. In 2017, she did an advanced fellowship in transplant hepatology at the Mayo Clinic in Rochester, Minnesota and practiced for two years while continuing laboratory research aimed at cirrhosis.
