2024 Prevention and Therapies for Chronic Liver Disease

Improve your Knowledge, Confidence and Competence

OVERVIEW

This seminar series will provide updates on the diagnosis and treatment of the dominant forms of viral hepatitis and explore the latest data on advancing liver disease, hepatocellular carcinoma, fatty liver disease and other hepatic conditions.

The seminar is available in **two formats, a live, face-to-face seminar or a web-based, self-paced Enduring Material**. It is even possible to combine the two modalities.

WHO SHOULD ATTEND?

This program was specifically developed for Gastroenterologists, Internists, Hepatologists, Endocrinologists, and Family Physicians as well as Advanced-practice Providers, Clinical Pharmacists and Nurse Specialists.

PROGRAM HIGHLIGHTS

This seminar series focuses on the key challenges of: diagnosis and treatment of chronic liver disease, current and emerging pharmaceutical and surgical therapies and the best knowledge to improve patient outcomes.

KEY TOPICS AND CLINICAL CASES ON:

- ▶ Viral Hepatitis - Causes and Cures
- ▶ End-stage liver disease and Transplant
- ▶ Rise in Hepatocellular Carcinoma and downstaging approaches
- ▶ Alcohol-associated liver disease
- ▶ Cholestatic liver disease - PBC and PSC
- ▶ MASLD and MASH - the global explosion in fatty liver disease
