I learn a lot in the session

The speakers were clear in their message.

I found the discussion of utilizing teleconferencing very informative. Also concerned about the new changes in transparency and the implications for some information being shared prematurely with patients.

I learned about the new transparency laws and how practices will be affected.

Excellent knowledge base and delivered the information in an interesting way.

All of the speakers were great the amount of knowledge and awareness I have after this session is a lot more than what I had before.

Common thread reinforced themes

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.) (3)

I will ask patients about their previous experiences in the context of ACES.

As was discussed by Dr William its high time we prevent cardiovascular disease from happening in the first place, I will work towards encouraging and motivating my patients to start with a plant based diet and move on towards organic lifestyle to prevent CVDs

More awareness
