

Prevention & Therapies for Hepatitis and Chronic Liver Disease Seminars 2023

September 23, 2023 - Dallas, TX

This activity was created to address the professional practice gaps listed below:

- Identifying current research studies on Hepatitis B, effective vaccines and promising therapeutic agents, which could help control the spread of the virus and reduce patient suffering.
- Identifying the early signs of Hepatitis A as many are caught off-guard about recent resurgence in many different populations and sub-groups.
- Recognizing that former HBV patients are at risk for contracting Hepatitis D.
- Applying clinical guidelines and best practice screening procedures and treatment approaches for end-stage liver disease (ESLD).
- Utilizing current and emerging technologies to determine liver disease that could reduce the need for invasive diagnostic testing.

1. Please respond regarding how much you agree or disagree that the gaps listed above were addressed.

	Disagree		Agree	
Participating in this educational activity changed your KNOWLEDGE in the professional practice gaps listed above. [9-4.00]	(0)	(0)	(0)	(9)100%
Participating in this educational activity changed your COMPETENCE in the professional practice gaps listed above. [9-4.00]	(0)	(0)	(0)	(9)100%
Do you feel participating in this educational activity will change your PERFORMANCE in the professional practice gaps listed above? [9-4.00]	(0)	(0)	(0)	(9)100%

2. Please elaborate on your previous answers. (4)

Participating in this conference gave me more information of new treatment modalities that can significantly improve patients outcome.

It is very informative.

good presentation

Very informative updates on a wide range of serious liver conditions

3. Please evaluate the effectiveness of the following speakers in improving your knowledge, competence and/or performance. (Poor = 1, Excellent = 4)

	Poor	Fair	Good	Excellent
Jacqueline O'Leary, MD [9-4.00]	(0)	(0)	(0)	(9)100%

Amit Singal, MD [9-4.00]	(0)	(0)	(0)	(9)100%
Arjmand Mufti, MD [9-4.00]	(0)	(0)	(0)	(9)100%

4. Please elaborate on your previous answers. (6)

Speakers are very knowledgeable about their particular topics presented

Speakers are very knowledgeable.

It was excellent and well organized

Speakers were very knowledgeable and informative. Lots of information, little time, but well delivered education.

good presentation

All were well prepared and knowledgeable

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.) (8)

HCC screening every 6 mo

New medications

importance of peth test

none

More patient education on hepatitis A,B,C, MAFLD, HCC

new protocols

new knowledge use

None but better awareness of most up to date knowledge

6. How certain are you that you will implement this change?

(9)

Very Certain ⁽⁶⁻
66.67%)

Certain ⁽³⁻
33.33%)

7. What topics do you want to hear more about, and what issues(s) in your practice will they address? (8)

Drug induced liver disease

Liver transplant

no idea yet

Liver cancer

HCC, MAFLD

New treatments

fatty liver disease and treatment. Preventative health.

liver carcinoma/liver diseases

8. Were the patient recommendations based on acceptable practices in medicine?

(8)

Yes (8-
100.00%)

9. If you answered No on the question above, please explain which recommendation(s) were not based on acceptable practices in medicine? (2)

N/a

na

10. Do you think the presentation was without commercial bias?

(9)

Yes (8-
88.89%)

No (1-
11.11%)

11. If you answered No on the above question, please list the topics that were biased?

(2)

N/a

na

12. Please provide any additional comments you may have about this educational activity. (7)

Great presentations

Very informative and helpful

no additional comments

none

Was very educative with good information and update

Thank you for the education.

13. This seminar utilized a hybrid format where live lectures were supplemented by recorded pre and post-course presentations. What did you think of this approach and why? (7)

Good idea. Helpful to see what topics are.

it is very effective.

It was excellent and well organized

was very interesting to know your level of understanding before and after. I personally enjoyed those

I liked the pre and post course testing. They covered all the basis and answered questions well.

it was ok

although escribe app may save presenters and organizers effort and expense, the learning curve for me was such that it was difficult to master and later review of material was difficult enough to have no practical value for me

As one of the participants of this educational activity, we want to encourage you to implement those ideas that were appropriate to your healthcare environment.

This evaluation is confidential and no individual will be identified by this office (Continuing Medical Education and Professional Development). It will only be used for quality improvement.

We look forward to seeing you at future University of Louisville events. Thank you very much.

Prevention & Therapies for Hepatitis and Chronic Liver Disease Seminars 2023

September 30, 2023 - St Louis, MO

This activity was created to address the professional practice gaps listed below:

- Identifying current research studies on Hepatitis B, effective vaccines and promising therapeutic agents, which could help control the spread of the virus and reduce patient suffering.
- Identifying the early signs of Hepatitis A as many are caught off-guard about recent resurgence in many different populations and sub-groups.
- Recognizing that former HBV patients are at risk for contracting Hepatitis D.
- Applying clinical guidelines and best practice screening procedures and treatment approaches for end-stage liver disease (ESLD).
- Utilizing current and emerging technologies to determine liver disease that could reduce the need for invasive diagnostic testing.

1. Please respond regarding how much you agree or disagree that the gaps listed above were addressed.

	Disagree		Agree	
Participating in this educational activity changed your KNOWLEDGE in the professional practice gaps listed above. [8-3.88]	(0)	(0)	(1) 12.50%	(7) 87.50%
Participating in this educational activity changed your COMPETENCE in the professional practice gaps listed above. [8-3.88]	(0)	(0)	(1) 12.50%	(7) 87.50%
Do you feel participating in this educational activity will change your PERFORMANCE in the professional practice gaps listed above? [8-3.88]	(0)	(0)	(1) 12.50%	(7) 87.50%

2. Please elaborate on your previous answers. (4)

Better understanding of liver disease to help my daily practice and it also helps me in my Int Medicine board exam

Great overview of complex disorders

NA

Excellent lectures provided by Dr. Elbeshbeshy

3. Please evaluate the effectiveness of the following speakers in improving your knowledge, competence and/or performance. (Poor = 1, Excellent = 4)

	Poor	Fair	Good	Excellent
Hany Elbeshbeshy, MD [8-3.88]	(0)	(0)	(1) 12.50%	(7) 87.50%
Jason Pan, MD [8-3.88]	(0)	(0)	(1) 12.50%	(7) 87.50%
Alexa Fider-Whyte [8-3.88]	(0)	(0)	(1) 12.50%	(7) 87.50%

4. Please elaborate on your previous answers. (5)

All the presenters were wonderful!!

All were excellent educators and met my expectations for this Seminar completely

All speakers were enthusiastic and knowledgeable. I want to go back to PA school just to have Alexa as a professor

All great presenters

Would attend again if the seminar returns to St. Louis

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.) (6)
Better management of hepatic encephalopathy.

I take care of office and nursing patients i have some very challenging situations in my daily practice

-name change to MALD -testing in specific situations for Hep D and E

More awareness of HE

Patients with elevated t bilirubin from PBC should proceed with transplant. Patients with PSC on ursodiol typically require a dose of 20-25 mg/kg/d, but must stay under 30 mg/kg/d.

Different medications

6. How certain are you that you will implement this change?

(8)

Certain (3-
37.50%)

Very Certain (5-
62.50%)

7. What topics do you want to hear more about, and what issues(s) in your practice will they address? (6)

More case studies

Available point of care G.I. testing. Patient access.

Hepatitis in general, acute alcoholic hepatitis, chronic alcoholism, Hepatic failure, ascites NASH and all liver related

More on Hep B treatment and monitoring

Would like a debate between speakers on a controversial topic in liver disease

Chronic liver

8. Were the patient recommendations based on acceptable practices in medicine?

(8)

Yes ⁽⁸⁻
100.00%)

9. If you answered No on the question above, please explain which recommendation(s) were not based on acceptable practices in medicine? (1)
Screening for hepatitis recommendations ,Immunizations,

10. Do you think the presentation was without commercial bias?

(8)

Yes ⁽⁷⁻
87.50%)

No ⁽¹⁻
12.50%)

11. If you answered No on the above question, please list the topics that were biased? (1)

I wish I knew lunch was going to be rep provided because this is not preferred by my employer

12. Please provide any additional comments you may have about this educational activity. (3)

Time well spent on this activity

N/A

NA

13. This seminar utilized a hybrid format where live lectures were supplemented by recorded pre and post-course presentations. What did you think of this approach and why? (6)

Great!

I would rather it all be presented at the time of the event.

it is very helpful for me to go over and study material provided

Prefer in person

Na

Worked well

Prevention & Therapies for Hepatitis and Chronic Liver Disease Seminars 2023

October 14, 2023 - San Diego, CA

This activity was created to address the professional practice gaps listed below:

- Identifying current research studies on Hepatitis B, effective vaccines and promising therapeutic agents, which could help control the spread of the virus and reduce patient suffering.
- Identifying the early signs of Hepatitis A as many are caught off-guard about recent resurgence in many different populations and sub-groups.
- Recognizing that former HBV patients are at risk for contracting Hepatitis D.
- Applying clinical guidelines and best practice screening procedures and treatment approaches for end-stage liver disease (ESLD).
- Utilizing current and emerging technologies to determine liver disease that could reduce the need for invasive diagnostic testing.

1. Please respond regarding how much you agree or disagree that the gaps listed above were addressed.

	Disagree			Agree	
Participating in this educational activity changed your KNOWLEDGE in the professional practice gaps listed above. [2-4.00]	(0)	(0)	(0)	(2)	100%
Participating in this educational activity changed your COMPETENCE in the professional practice gaps listed above. [2-4.00]	(0)	(0)	(0)	(2)	100%
Do you feel participating in this educational activity will change your PERFORMANCE in the professional practice gaps listed above? [2-4.00]	(0)	(0)	(0)	(2)	100%

2. Please elaborate on your previous answers. (2)

Info was relevant

I learned so much more and got many ideas on topics to dive into further

3. Please evaluate the effectiveness of the following speakers in improving your knowledge, competence and/or performance. (Poor = 1, Excellent = 4)

	Poor	Fair	Good	Excellent
Jennifer Au, MD [2-3.50]	(0)	(0)	(1) 50.00%	(1) 50.00%
Julio Gutierrez, MD [2-4.00]	(0)	(0)	(0)	(2)100%
Lisa Richards, FNP-BC, MSN [2-3.50]	(0)	(0)	(1) 50.00%	(1) 50.00%

4. Please elaborate on your previous answers. (2)

All of the speakers were knowledgeable

All were great. Dr. Gutierrez has always been an engaging speaker that makes the audience feel welcome

5. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.) (2)

I will be able to treat my patients with MASH with more expertise

Monitoring for HCC better. Better choices with imaging modalities. Many more

6. How certain are you that you will implement this change?

(2)

Very Certain (2-
100.00%)

7. What topics do you want to hear more about, and what issues(s) in your practice will they address? (2)

Transplant

Nutrition in liver disease

8. Were the patient recommendations based on acceptable practices in medicine?

(2)

Yes (2-
100.00%)

10. Do you think the presentation was without commercial bias?

(2)

Yes (2-
100.00%)

13. This seminar utilized a hybrid format where live lectures were supplemented by recorded pre and post-course presentations. What did you think of this approach and why? (2)

Great approach

Loved this- brought my laptop and followed with the lectures. Was able to listen before and after, too.
