

2017 Spine Symposium

September 22, 2017

Churchill Downs Trophy Room

700 Central Ave

Louisville, KY 40208

Course Description

This symposium will present a multidisciplinary approach needed for the care and treatment of patients with neurological spinal diseases in order to educate and inform healthcare providers about best current practices and future treatment and rehabilitation directions.

Target Audience

Neurosurgeons, Physiatrists, Primary Care Physicians, and all other community healthcare professionals interested in learning the latest treatments and care options for neurological spinal diseases.

Learning Objectives

As a result of participating in this activity, the participants should be able to:

- > Identify the best care and treatment options for patients with neurological spinal diseases.
- > Recognize treatment guidelines for back pain and lumbar spine disorders.
- > Define treatment of cervical spinal disorders and rehabilitative medicine for spinal diseases.

REGISTRATION

This conference is free to all participants. Advance registration is required to allow for program planning. Register for the symposium here:
