## About the Event

UofL Physicians – Neurosciences – Parkinson’s Disease and Movement Disorders in collaboration with Frazier Rehab Institute is offering a CME/CE activity to learn about functional movement disorders (FMD) with a focus on a pragmatic, multidisciplinary treatment approach. The Motor Retraining (MoRe) program for FMD was established at Frazier in 2014 following a model developed at the Mayo Clinic in Rochester, Minn. The program employs successful treatment rehabilitation strategies using physical and occupational therapy and speech language pathology as well as cognitive behavioral therapy modules. Faculty from UofL Physicians, Frazier Rehab and the Mayo Clinic will present a unique mix of lectures and practical training opportunities to gain knowledge and skills on treatment of FMD patients.

## Target Audience

Neurologists, physiatrists, physical and occupational therapists, speech language pathologists, psychologists, social workers and other health care providers interested in the treatment of FMD.

## Accreditation Statement

The University of Louisville School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

## Continuing Education Credit

**Physician Credit** - The University of Louisville Continuing Medical Education office designates this live activity for a maximum of 4.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Nurse** - This program has been approved by the Kentucky Board of Nursing for 5.7 continuing education credits through University of Louisville Hospital, provider number 4-0068-7-18-996. The Kentucky Board of Nursing approval of an individual nursing education provider does not constitute endorsement of program content.

The following credits are also being requested.  
PT,OT,Psych = 4.75; Social Work: 4.2

This course is available for .45 ASHA CEU's (Intermediate level, Professional area)

- Adjournment

# Speakers

## Kathrin LaFaver, M.D.

Dr. LaFaver is the Director of the Parkinson's and Movement Disorders Clinic at UofL Physicians, Assistant Professor of Neurology and Raymond Lee Leiby Chair for Parkinson's Disease Research at the University of Louisville. She is a native from Germany and completed a Neurology residency at the Mayo Clinic in Rochester, Minn. She pursued fellowship training in Movement disorders at Beth Israel Deaconess Medical Center in Boston and at the National Institutes of Health in Bethesda, Md. Dr. LaFaver has a longstanding interest in functional movement disorders (FMD) and established an inpatient motor retraining ("MoRe") program for the treatment of FMD at Frazier Rehab Institute in 2014. Her research is focused on understanding the pathophysiology and defining best treatment options for patients suffering from FMD.

## Darryl Kaelin, M.D.

Dr. Kaelin is a Professor and Chief of Division of Physical Medicine and Rehabilitation at the University of Louisville. He is the Medical Director of the Frazier Rehab Institute and oversees the inpatient MoRe program. He specializes in neurorehabilitation with a focus on traumatic brain injury and stroke. He speaks nationally and internationally on concussion, spasticity management and neuropharmacology.

## Jeffrey Thompson, M.D.

Dr. Jeffrey Thompson has been a member of the Mayo Clinic staff in Rochester, Minn. since 1988. Currently, he serves as a consultant in the Department of Physical Medicine and Rehabilitation and as Associate Professor in the Mayo Clinic School of Medicine. He helped establish the Mayo Behavioral Shaping Therapy (BeST) program for the treatment of functional movement disorders in 2001 and also practices in the areas of sports medicine, musculoskeletal, and amputee rehabilitation.

## Megan Jablonski, PhD

Dr. Megan Jablonski is a Clinical Psychologist at Frazier Rehab Institute. She completed her doctoral degree at the University of Louisville, where she studied the impact of meditation-based interventions on physical health and emotional well-being. Her primary clinical interests are within health psychology and rehabilitation psychology. Dr. Jablonski has worked with the MoRe program since 2014, involved in providing assessment and clinical care for patients with functional neurological disorders.

## Beth Geissler, PT, DPT

Beth Geissler has been working at the Mayo Clinic since 2011. She is originally from Eau Claire, Wis. She graduated from the University of LaCrosse Wisconsin in 2011 with her doctoral degree in Physical Therapy. She works with functional movement disorder patients in the Behavioral Shaping Therapy (BeST) program and also practices in the Neurodegenerative Disease Clinic, Facial Re-animation clinic, and musculoskeletal outpatient practice.

## Courtney Smith, PhD

Dr. Courtney Smith has been a Clinical Psychologist at Frazier Rehab Institute since 2010. She completed her doctoral training at the Wright Institute in Berkeley, Calif., and her pre-and post-doctoral fellowships at the University of Louisville School of Medicine. She has been providing psychology services to patients in UofL's MoRe Program since its inception in 2014.

## Cory Child, PT, DPT, CBIS

Cory Child, PT, DPT is a physical therapist working at Frazier Rehab Institute on the in-patient neuro-unit since 2011. He received his bachelor of arts in Biology from the University of Louisville and his Doctorate in Physical Therapy from the University of Kentucky in 2011. He is a certified brain injury specialist and clinical instructor. Cory has worked with patients in the MoRe program since its inception at Frazier.

## Dana Backus, OTR/L

Dana Backus, OTR/L has been an Occupational Therapist for 9 years at Frazier Rehab Institute and very much enjoys her new career. Ms. Backus spent her first career in accounting, opting instead at age 50 to switch to a career with meaning and satisfaction. She works with patients with various diagnoses such as stroke, Parkinson's, multi trauma and cancer to name a few in addition to patients from the MoRe program. Mrs. Backus is legally blind and has spent her life trying to be as independent as possible despite not being able to drive until age 50. When she switched careers, she decided that she wanted to share her experiences with others to also make them as independent as possible. When not engaged in her chosen career, Mrs. Backus enjoys reading, needlework and running.

## Brittany McAndrew, MA, CCC-SLP

Brittany McAndrew, MA, CCC-SLP is a Speech-Language Pathologist at Frazier Rehab Institute. Brittany received her BS from Western Kentucky University and M.A. from Indiana University. She specializes in clinical evaluation, management, and treatment of communication, cognitive, and swallowing disorders in adults with a variety of communication, cognitive, and swallowing disorders, including those in the MoRe Program.

## Cathy Parker, RN, BSN

Cathy Parker, RN, BSN is a Clinical Assessment Liaison at Frazier Rehab Institute. She graduated from the University of Louisville. She has over 27 years nursing experience in the areas of psychiatry, home health and rehabilitation. She has worked the past 17 years, at Frazier, facilitating admissions to inpatient rehab. She enjoys working with Trauma, SCI, TBI and FMD populations. The opportunity to be a part of the MoRe program, throughout its planning and implementation, has enabled Cathy to cumulatively utilize her nursing knowledge and experience.
