Legend

percent question responses
 Proportion of a specific response (Qa) to the sum of all responses provided for that question (Qt).
 $percent\ of\ total\ question\ responses = Qa / Qt$
 (Example: X% of all responses to question Y were "A".)

[†] Percentages are calculated in three different ways. Click on the "Show Extended View" option at the top of the report to display the additional calculations. In cases where a question is required and only one response is allowed, all three percentages will be equal. The difference between the three calculations is most notable in a choose-all-that-apply question type that is optional.

Legend

 **percent question responses**
 Proportion of a specific response (Qa) to the sum of all responses provided for that question (Qt).
 percent of total question responses = Qa / Qt
 (Example: X% of all responses to question Y were "A".)

[†] Percentages are calculated in three different ways. Click on the "Show Extended View" option at the top of the report to display the additional calculations. In cases where a question is required and only one response is allowed, all three percentages will be equal. The difference between the three calculations is most notable in a choose-all-that-apply question type that is optional.

Fromer, Eric TPMG/ UC Davis	2219596-27FV6B 2014-09-28 10:52:46.891-04	eric.fromer@kp.org Phone: 7076243207 Fax:	40 Greentree Court Lafayette, CA, 94549 USA		I really like Armstrong's evidence based medicine talk and Rosen's new therapies and STD talk. More in-depth derm path talk, latest dermpath research would be preferred. I liked DeLeo's use of patient scenarios for typical photodermatosis workups.
6.	Herdener, Richard Dermatology Specialists of Spokane	2238965-v3MJ9 2014-10-07 13:13:50.006-04	rherdener@dermsos.com Phone: 509456-8444 Fax: 509455-9227	820 S McClellan Suite 426 Spokane, WA, 99204 USA		N/A

I was ready to kill myself! David Parisier also gave a great talk, but please correct spelling and grammar, especially use of apostrophe. Clay Cockerell - great talk but the numerous dermpath slides diluted the message. Miriam Bettencourt - loved her practice tips and loved her enthusiasm. I really didn't get her Obama asides, though. Probably not a good forum for political opinion. Would love a dermoscopy lecture.
