 percent of total question responses = Qa / Qt  
 (Example: X% of all responses to question Y were "A".)

† Percentages are calculated in three different ways. Click on the "Show Extended View" option at the top of the report to display the additional calculations. In cases where a question is required and only one response is allowed, all three percentages will be equal. The difference between the three calculations is most notable in a choose-all-that-apply question type that is optional.

1.	Aird, Allison University of Louisville	1160718-13f38 2013-10-11 20:10:52.057-04	allison.aird@louisville.edu Phone: 847287-5295 Fax:	7066 Aspen Grove Court Louisville, KY, 40241 USA		Dr. Mklowitz and Dr. Peters were excellent lecturers with good lecturing style - they made good use of humor, videos, and discussion to keep us engaged. Dr. Nurnberger, while possessing a wealth of knowledge and clearly well-educated on his subject, was a little more monotone and difficult to stay engaged in what he was trying to teach. I like and understand genetics as well as what he was trying to teach, but the way the material was presented wasn't the best for keeping everyone interested.

21.	Owens, Keisha <i>Our Lady of Peace</i>	1161300-AFSwro 2013-10-14 00:03:37.692-04	keishakowens@gmail.com Phone: 502526-1811 Fax:	3312 Colonial Manor Circle Unit 4A Louisville, KY, 40218 USA		Drs Caudill, Lohr, and Nguyen were speakers that I did not have an opportunity to hear from. Dr. Nurnberger's presentation was given in a way that only another Doctor or micro biologist would understand, I had a hard time staying with him.
22.	Patel, Sudha <i>Breckinridge memorial hospital</i>	1203624-3SM2zC 2013-11-12 19:29:00.661-05	sue_mogali@yahoo.com Phone: 6155699193 Fax:	317 Armes Payne Lane Hardinsburg, KY, 40143 USA		NA

Dr. Mklowitz used videos in his session that were virtually incomprehensible. The sound quality was extremely poor therefore losing the audience for very long stretches of time.
24. All speakers were competent to speak on the topic of bipolar d/o

26.	Smith, Aaron <i>Floyd Memorial Hospital</i>	1162201-Zqww2 2013-10-16 09:16:46.517-04	smith.aaw@gmail.com Phone: 765716-1751 Fax:	3801 Davis Dr New Albany, IN, 47150 USA		Drs. Peters and El-Mallakh were the highlight of the day for me. The holistic, humane, & beneficent tone of their work really hit home with me. I felt Dr. Nurnberger's research and information were extremely valuable. Unfortunately, the specific range of knowledge needed for understanding demanded a great deal of review on genetic theory. This caused his presentation to be overly lengthy, w/ only a minimal amount of new info to show for it. Perhaps this was not the best venue for him. Drs Lohr and Mklowitz both did a fantastic job digging into their subjects somewhat deeply while maintaining a wonderfully digestible approach.
27.	Sparrow, Holly <i>Communicare</i>	1162995-3vDnAu 2013-10-17 19:18:43.949-04	hsparrow@communicare.org Phone: 5023489206 Fax: 5023486485	331 S 3rd Street Bardstown, KY, 40004 USA		Nurnberger lost me. He was talking way over my head. I love hearing Dr. El-Mallakh speak. He is a great presenter. Dr. Russ changed my view on BPD, and gave me a new way to look at things.
28.	Spath, Jo <i>Seven Counties Services</i>	1161608-3736F5 2013-10-14 17:27:05.214-04	jspath@sevencounties.org Phone: 5025898923 Fax: 5027755292	16 Indian Hills trail Louisville, KY, 40207 USA		All presenters were well prepared and informative

However, the ones I selected were wonderful. The discussion on Personality Disorders was very

						practical and helpful as was the discussion on DSM5. They presented the pros and cons and gaver helpful information and all of the presenters were very prepared and articulate.

#### Legend

 **percent question responses**  
Proportion of a specific response (Qa) to the sum of all responses provided for that question (Qq).  
 $percent\ of\ total\ question\ responses = Qa / Qq$   
(Example: X% of all responses to question Y were "A".)

<sup>†</sup> Percentages are calculated in three different ways. Click on the "Show Extended View" option at the top of the report to display the additional calculations. In cases where a question is required and only one response is allowed, all three percentages will be equal. The difference between the three calculations is most notable in a choose-all-that-apply question type that is optional.
