UofL - 4405 - Objectives Evaluation

 Likert Avg.
4.34

Total Completed: 584

Options: Show Extended View

This activity was created to address the professional practice gaps listed below:

- Adequate treatment of onychomycosis.
- Utilizing current literature on onychomycosis diagnosis and treatment.
- Identifying new medications and other therapeutic modalities for effective and safe treatment of onychomycosis.

1. Please respond regarding how much you agree or disagree that the gaps listed above were met.

 Did participating in this educational activity change your KNOWLEDGE in the professional practice gaps that are listed above?
 (1=Disagree,5=Agree)

Sample	Mean	Graph	Std. Dev.
All Respondents	4.377		± 0.809
Response	Count	Graph	Percent †
1=Disagree	7		1%
2	3		< 1%
3	71		12%
4	185		32%
5=Agree	318		54%
Total Responses:	584	Respondent Details Trend Analysis	

 Did participating in this educational activity change your COMPETENCE in the professional practice gaps that are listed above?
 (1=Disagree,5=Agree)

Sample	Mean	Graph	Std. Dev.
All Respondents	4.336		± 0.835
Response	Count	Graph	Percent †
1=Disagree	6		1%
2	8		1%

3	78		13%
4	184		32%
5=Agree	308		53%
Total Responses:	584	Respondent Details Trend Analysis	

Did participating in this educational activity change your PERFORMANCE in the professional practice gaps that are listed above?
(1=Disagree,5=Agree)

Sample	Mean	Graph	Std. Dev.
All Respondents	4.293		± 0.858
Response	Count	Graph	Percent †
1=Disagree	8		1%
2	6		1%
3	88		15%
4	187		32%
5=Agree	295		51%
Total Responses:	584	Respondent Details Trend Analysis	

2. Please elaborate on your previous answers.

Response	Count	Graph	Percent †
Open-ended Text Responses (View Responses)	135		100%
<i>Non-Responders:</i>	449		

Legend

percent question responses
Proportion of a specific response (Qa) to the sum of all responses provided for that question (Qt).
percent of total question responses = Qa / Qt
(Example: X% of all responses to question Y were "A".)

† Percentages are calculated in three different ways. Click on the "Show Extended View" option at the top of the report to display the additional calculations. In cases where a question is required and only one response is allowed, all three percentages will be equal. The difference between the three calculations is most notable in a choose-all-that-apply question type that is optional.

32.	Cicutto, Elizabeth <i>Best Weigh Weight Loss Center</i>	1203160-F4n45 2013-11-11 18:57:37.721-05	gcicutto@frontiemet.net Phone: 931349-0376 Fax:	3390 Gra Mar Drive Cookeville, TN, 38506 USA	newlyinformed
33.	Clancy, Kathleen <i>Retired</i>	1249107-2hHyBe 2014-02-27 02:14:24.026-05	kathleenciancy@sbcglobal.net Phone: 925228-0597 Fax:	3728 Canyon Way Martinez, CA, 94553 USA	Very interesting and worthwhile article. In an effort to avoid spreading the infection up the leg and to the groin etc I have encouraged patients to use one towel for drying feet and one for the rest of the body unless there is another site of infection. Then use an additional towel . Wash the towels after every use. Small hand towels seem to work well.
34.	Conner, Samantha <i>Skin Surgery Center</i>	1031318-3sBGAB 2013-08-20 09:16:32.441-04	mantha_dock@hotmail.com Phone: 336789-4300 Fax:	314 S South Street Suite 400 Mt Airy, NC, 27030 USA	I learned of more treatment options for patients

UofL - Shared Activity Evaluation

 Likert Avg.
N/A

Total Completed: 584

Options: Show Extended View

This evaluation is confidential and no individual will be identified by this office (Continuing Medical Education and Professional Development). It will only be used for quality improvement.

1. Please identify a change that you will implement into practice as a result of attending this educational activity (new protocols, different medications, etc.)

Response	Count	Graph	Percent †
Open-ended Text Responses (View Responses)	354		100%
<i>Non-Responders:</i>	230		

2. How certain are you that you will implement this change?

Response	Count	Graph	Percent †
Very certain	207		35%
Certain	235		40%
Maybe	81		14%
Not certain	11		2%
Will not implement	5		< 1%
N/A	45		8%
Total Responses:	584		

[Respondent Details](#) [Trend Analysis](#)

3. What topics do you want to hear more about, and what issues(s) in your practice will they address?

Response	Count	Graph	Percent †
Open-ended Text Responses (View Responses)	154		100%
<i>Non-Responders:</i>	430		

4. Were the patient recommendations based on acceptable practices in medicine?

Response	Count	Graph	Percent †
Yes	584		100%
No	0		0%
Total Responses:	584		

[Respondent Details](#) [Trend Analysis](#)

5. If you answered No on the question above, please explain which recommendation(s) were not based on acceptable practices in medicine?

Response	Count	Graph	Percent †
Open-ended Text Responses (View Responses)	11		100%
Non-Responders:	573		

6. Do you think the presentation was without commercial bias?

Response	Count	Graph	Percent †
Yes	563		96%
No	21		4%
Total Responses:	584	Respondent Details Trend Analysis	

7. If you answered No on the above question, please list the topics that were biased?

Response	Count	Graph	Percent †
Open-ended Text Responses (View Responses)	9		100%
Non-Responders:	575		

8. Please provide any additional comments you may have about this educational activity.

Response	Count	Graph	Percent †
Open-ended Text Responses (View Responses)	66		100%
Non-Responders:	518		

As one of the participants of this educational activity, we want to encourage you to implement those ideas that were appropriate to your healthcare environment. We look forward to seeing you at future University of Louisville events. Thank you very much.

Legend

 **percent question responses**
 Proportion of a specific response (Qa) to the sum of all responses provided for that question (Qt).
 $percent\ of\ total\ question\ responses = Qa / Qt$
 (Example: X% of all responses to question Y were "A".)

† Percentages are calculated in three different ways. Click on the "Show Extended View" option at the top of the report to display the additional calculations. In cases where a question is required and only one response is allowed, all three percentages will be equal. The difference between the three calculations is most notable in a choose-all-that-apply question type that is optional.
