

The following suggested course sequence is designed for undergraduate JUNIOR and SENIOR level students at UofL. The courses are sufficient in breadth and depth to allow undergraduate students to apply for admission to UofL's graduate program in speech-language pathology. The coursework does not provide a certificate in speech-language pathology or an undergraduate degree in speech-language pathology. Moreover, successful completion of the coursework does not guarantee admission to UofL's graduate program. Any coursework completed should be considered *elective* to each student's undergraduate plan of studies.

Junior Year (Fall Semester)

CMDS 405 Introduction to Audiological Techniques and Rehabilitation	3 Credit Hours
PSYC 571 Speech Science	3 Credit Hours

<p>Program Overview 23 Credit Hours (Required Academic Coursework)</p>
--

Junior Year (Spring Semester)

CMDS 471 Functional Neuroanatomy	3 Credit Hours
CMDS 463 Clinical Phonetics	3 Credit Hours

Senior Year (Fall Semester)

CMDS 474 Multicultural Issues in Communicative Disorders	3 Credit Hours
CMDS 470 Clinical Observation	1 Credit Hour

Senior Year (Spring Semester)

CMDS 464 Normal Speech and Language Development	4 Credit Hours
CMDS 430 Aural Rehabilitation for the Speech-Language Pathologist	3 Credit Hours

The American Speech-Language-Hearing Association (ASHA) also requires that applicants for certification also complete coursework from the following four areas: (1) biological science, (1) physical science (chemistry or physics), (1) social-behavioral science (psychology/sociology), and (1) math-based statistics. The following courses from UofL are suggested:

- Biological Science: BIOL 102, BIOL 240, or BIOL 242 (lab not required)
- Physical Science: CHEM 101, CHEM 105, or CHEM 201 (lab not required) | PHYS 111 or PHYS 221 (lab not required)
- Social-Behavioral Science: PSYC 201, PSYC 301, PSYC 305, or PSYC 306 | SOC 201, SOC 202, SOC 210, or SOC 301
- Math-Based Statistics: PSYC 301, SOC 301, or MATH 109
