“Interdisciplinary Dementia Assessment” :

U of L Geriatric Evaluation Team (GET)

Tuesday, June 3, 2014 12:00—1:00 p.m.

Kornhauser Health Science Library Auditorium, 500 St. Preston St.

Presented by (lunch sponsor) : U of L Department of Family & Geriatric Medicine

Sponsored by: Kent School of Social Work, University of Louisville Ohio Valley Appalachia
Regional Geriatric Education Center

Overview: The diagnosis, treatment & care planning for persons with dementia(PWD) is counterintuitive, complex and highly individualized. An interdisciplinary team (IDT) approach that incorporates the caregiver-PWD dyad is optimal for providing comprehensive assessment and care. This session will demonstrate the process of IDT assessment and care planning by the U of L Geriatric Evaluation Team. The GET process focuses on: history, functional status, mental health, medical diagnosis, clinical psychological assessment, sociological and medication aspects and will be discussed by a team of experts in this case based learning session.

DFGM Faculty

Demetra Antimisiaris, PharmD (course director)
