

	A	B	C	D
1	2018-2019 MEC Speaker Schedule			
2	Date	Speaker	Department/University	Title
3	5-Sep	Krishnasamy	Endocrinology	"From Full House to Empty Nest: The Spectrum of Polyglandular Autoimmune Endocrinopathies"
4	12-Sep	Johanna Archer	Fertility First	"Menopausal Hormone Therapy: Where are We Now?"
5	19-Sep	Mokshagundam	Endocrinology	"Diabetes in the Digital Age – Harnessing Technologies for Diabetes Care and Prevention"
6	26-Sep	Villafuerte	Endocrinology	"Rare Adipose Tissue Disorders: An Update"
7	3-Oct	Dr. Zhenmin Lei	Molecular Endo	"The Role of Luteinizing Hormone in Regulation of Hematopoietic Stem Cell Function"
8	10-Oct	Stanley Levinson, PhD	Pathology	"Diagnostic Criteria for Polyneuropathy, Organomegaly, Endocrinopathy, Monoclonal protein Skin changes (POEMS) Syndrome"
9	17-Oct	Terry Davies, MD	Mount Sinai	"Pregnancy and Autoimmune Thyroid Disease"
10	24-Oct	Balamurgan Appakalai, PhD	Molecular Endo	"Update on Clinical Islet Allo-Transplantation and How Donor & Islet Isolation Factors Affect Islet Transplant Outcome"
11	31-Oct	Kristie Schultz, PhD	Peds	"Adherence in Pediatric Diabetes: Overcoming Barriers to Care"
12	7-Nov	Winters	Endocrinology	"ACTH - Independent Cushing Syndrome"
13	14-Nov	Courtney Schadt, MD	Dermatology	"The Skin and Endocrinology: A Case Based Challenge"
14	28-Nov	Kristi M. King, PhD, CHES	Peds	"Physical Activity and Health: Strategies for Physical Activity Promotion"
15	5-Dec	Robert Bert, MD	Radiology	"Imaging of Hypothalamic & Pituitary Lesions"
16	12-Dec	Alexander Asamoah, MD, PhD	Peds Genetics	"Utility of Genetic Testing in Endocrinology"
17	9-Jan	Albert Seow, MD	Radiology	"Imaging of the Adrenal Gland"
18	16-Jan	Bertis Little, PhD	School of Public Health	"Predictive Analytics and Disease Natural History: Type 2 Diabetes and Renal Failure from Medicaid Data"
19	23-Jan	Dr. Carolyn M. Klinge	Molecular Endo	"RNA Methylation Reader HNRNPA2B1 Regulates miRNA Expression in Breast Cancer Cells"
20	6-Feb	Mokshagundam	Endocrinology	"Gut Liver Axis and Metabolic Disorders - an Update from an Endocrine Perspective"
21	13-Feb	Henry Bohler, MD	REI	"Subclinical Hypothyroidism and Pregnancy"
22	20-Feb	Michael Egger, MD	Surgery	"Adrenocortical Carcinoma"
23	27-Feb	Dr. Russell Prough (DHEA)	Molecular Endo	"Dehydroepiandrosterone Research: Past, Current, and Future"
24	6-Mar	Lisal Folsom	Endocrinology	"In this case, it probably is your hormones: Endocrinology of Pregnancy"
25	13-Mar	Peter Snyder, MD	University of Pennsylvania	"The Skeletal Effects of Testosterone"
26	20-Mar	Betty Villafuerte, MD	Endocrinology	"Thyroid and the Heart"
27	27-Mar	Stephen Winters, MD	Endocrinology	"SHBG and the Metabolic Syndrome"
28	10-Apr	Swapna Dharashivkar Deo, MD	Endocrinology	"Here, there, hair everywhere!" Managing hirsutism in clinical practice
29	17-Apr	Dr. Alan Cheng	Molecular Endo	"The Collusion of Glycogen and Disease"
30	24-Apr	Krishnasamy	Endocrinology	"The Skinny on Obesity Therapeutics: Struggles of a Supersized Nation"
31	1-May	Catalina Cabrera, MD	Peds	"The Role of Genetic Testing in the Evaluation of Short Stature"
32	8-May	Martin E. Brown, MD	Neurology	"The Neuropathies of Diabetes"
33	15-May	Emily Sims, MD	Peds Indiana University	Beta Watch Out! "Using Biomarkers of Islet Beta Cell Stress and Death to Understand Different Stages of Type 1 Diabetes"
34	22-May	Dr. Michael Merchant	Molecular Endo	"Focal Segmental Glomerular Sclerosis-Cellular Mimicry as a Causal Route to Disease Severity?"
35	29-May	Doris Kampe-Okotie	Endocrinology	"Toxic Multinodular Goiter and Thyroid Cancer Risk"
