1:00 – 6:00pm

**SATURDAY, JULY 24**

8:00am – 3:30pm

For More Information and to Register:  
<http://bit.ly/hepandCLD21>

Pre-Registration is encouraged.

For seminar specific information, contact [cme@scliver.com](mailto:cme@scliver.com)

This face-to-face seminar focuses on key challenges in the prevention, treatment and patient management approaches associated with viral hepatitis, advancing cirrhosis, liver cancer, fatty liver disease and other hepatic conditions. The updated content is drawn from latest medical guidelines and clinical trial results.

Local faculty experts will deliver state-of-the-art material utilizing a curriculum that features lectures, case analysis, current clinical trial outcomes and progress reports on promising diagnostic approaches and emerging therapies.

Topics to be covered include:

- ▶ Viral Hepatitis: The origins and pathways of HBV, HCV and Delta Hepatitis
- ▶ Vaccines, prevention models and avoiding reactivation of the virus.
- ▶ SARS-CoV-2 and liver disease.
- ▶ End-stage liver disease, cirrhosis, tumor reduction and transplant options.
- ▶ Hepatocellular Carcinoma - management approaches and new immunotherapies
- ▶ The resurgence of Hepatitis A and Alcoholic Liver Disease
- ▶ Identifying and treating Fatty Liver Disease and NASH
- ▶ PBS and PSC - the latest outcomes from EASL and AASLD

Those who complete this activity will better identify how to screen, diagnose and treat their patients with Viral Hepatitis, Cirrhosis, Liver Cancer, Fatty Liver Disease and more.
