

## **Zeus Borrelia MTTT™ (Lyme) Supplemental Test**

The ZEUS® ELISA IgG and IgM Test System is an enzyme-linked immunosorbent assay (ELISA) for the qualitative detection of IgG or IgM class antibodies to *Borrelia burgdorferi* in human sera. This assay is intended for testing serum samples from symptomatic patients or those suspected of Lyme Disease. Positive test results by the MTTT methodology is supportive evidence for the presence of antibodies and exposure to *Borrelia burgdorferi*, the cause of Lyme disease.
