

## Guest Lecture Series

Every spring, the residents invite a guest lecturer to teach pathology to our residents for a day. The Guest Lecture Series alternates between AP and CP each year, but it is the PGY4 residents who select the topic and who will be the guest lecturer for the year. All residents are excused from service for the day to attend all events with the guest lecturer.

In the spring of 2018, the PGY4 residents invited Dr. Richard Lieberman M.D., FCAP, FACOG, Clinical Associate Professor of Pathology and Obstetrics & Gynecology from the University of Michigan, Ann Arbor, MI.

### **Itinerary for Guest Lecture Series 2018.**

8:00 a.m. – 11:45 a.m. Breakfast and Lectures with residents.
