Part one of Series: Making the Most of Your Maintenance Period

Supporting Your Growth in Caregiver Coaching with Practical Resources and Activities

Maintenance is designed to offer ongoing support as you continue to refine your caregiver coaching skills while also meeting the requirement for sustained fidelity. As part of this ongoing process, KEIS providers will submit video-recorded EI sessions at regular intervals for fidelity review — ensuring continued growth, quality, and impact. To help you feel confident and prepared, the CEITMP offers a variety of resources and suggested activities to support your success. Our data shows that actively engaging in these activities leads to stronger caregiver coaching skills, as reflected in the Kentucky Coaching Adherence Rubric-Revised. This newsletter will highlight optional, yet highly beneficial, resources and activities to enhance your caregiver coaching skills, guide you in preparing your video submissions, and ultimately contribute to positive outcomes for the children and families you support.
