We are pleased to finally be able to offer COVID-19 vaccine to all remaining university employees (including students on payroll) who have not yet been vaccinated. We hope to offer vaccine to the remaining students by the middle of April. Please respond to the form even if you have been vaccinated, have recently had COVID or do not wish to be vaccinated at this time.

All vaccinations will be scheduled with UofL Healthcare in the Purple Lot next to the football stadium. **April 8 and 9 are dedicated solely to UofL employees but we can schedule you later if you cannot get vaccinated on those dates.** If you already have an appointment with the University Hospital Drive-thru please keep your appointment.

Those who indicate that they wish to receive the vaccine will be scheduled for and receive notification of their vaccine appointment time from UofL Health's Acuity scheduling system with the appointment details. You will not have a choice as to which vaccine you will receive but we anticipate that it will be the Johnson and Johnson vaccine (1 dose series) although there is a possibility that you might receive the Pfizer vaccine (2 dose) series. Please call the phone number at the bottom of your appointment notice if you miss, need to reschedule, or cancel your appointment with UofL Health. The University does not have the capability to make these changes for you.

On the day of your vaccination be sure to bring your UofL ID. The link below will only work with the intended recipient's Microsoft Office credentials.
