

# Pediatrics Clinical Research

- Faculty development opportunities
  - Grant writing seminar—information will be in newsletter and sent via email
- NCRI
  - New staff
- With integration, all clinical research must run through UofL and NCRI
  - Processes required determined by funding, sites, etc.
  - Finalizing processes
  - Please reach out with questions

# KE-PIRC Updates

Writing Winning Grant Proposals

Virtual Meeting - October 28, 2021, from 8:30-4:30

Flyer has been sent with registration link

# Write Winning Grant Proposals

*A virtual seminar*

**With consultant Lauren M. Broyles, Ph.D.  
Grant Writers' Seminars and Workshops**

Sponsored by the Kentucky Pediatric IDeA Grant Research Center (K-PIRC)

**Thursday, October 28, 2021**

**8:00 am – 4:30 pm**

Grant proposal-writing skills are essential for the promotion and success of academic investigators. Obtaining grants requires perseverance and essential skills in communicating your ideas to the funding agency. Regardless of whether applications for funding are for basic science or patient-oriented investigations, there is a need to convey your ideas effectively. This seminar comprehensively addresses both conceptual and practical aspects that are associated with the proposal-writing process. Rather than offer what is typically presented (little more than how to fill out forms and conform to instructions) this proposal-writing seminar emphasizes grantsmanship: idea development, how to write for reviewers, and tips and strategies for creating logical and convincing arguments in each section of the proposal.

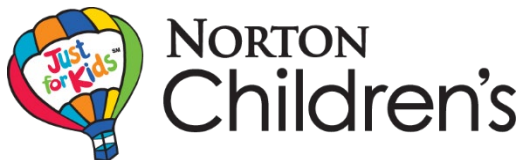

Each participant receives a copy of *The Grant Application Writer's Workbook*. The workbook provides participants with an opportunity to apply what they have learned through an interactive, step-by-step approach. The principles and fundamentals emphasized throughout the program will appeal most to individuals interested in writing grant applications to the NIH, NSF, and USDA, but are also easy to modify for grant applications written to other funding agencies.
