

February 7, 2022- Department of Pediatrics Faculty Meeting Recap

Kim Boland | General Announcements and Chair Update

- Congrats to Suzanne Kingery; recognized as a Louisville Business First Health Care Hero in the Health Equity Champion category
- Annual reviews due to chair office February 15
- MOC Update: now have 50 in category 2 and 50 in category 4; all should have received a personal email
- Recruitment Update: continue to recruit in many areas; for our department, Andrew Weinberger & Jen Morgan will be setting up interviews, will work with division chiefs, most are virtual with some 2nd visits in person; at the March faculty mtg more comprehensive review; charged the GI search committee last week
- Discussed Resident Grand Rounds participation and Pediatric Grand Rounds and suggestions to encourage participation; have had some sessions canceled; suggestion to have a specific pause time for speaker to ask for comments, questions; suggestion to encourage learners to engage in the chat feature, will need help with monitoring
- Thanks to social media & Twitter champions on number of shares; the USNWR rankings and Doximity are tied together this year; all are needed to vote, starts in March; encouraged all to get on Doximity

Division Wins & Misses | Dr. Sidd Shah

- Wins include hiring faculty starting in October 2022; hired a NP; participated in several multidisciplinary research committees; increased volume of completed appointments; procedures-Prismaflex-TPE, c-DNA, ABPM expansion; agreement with Renasight Natera for expanded genetic surveillance & testing for kidney diseases; clinical growth in visits; increase in new patients
- Misses include loss of staff; hiring challenges; teaching opportunities; research opportunities

Medical Education | Sara Multerer

- Next week resident procedure rotations starting for interns, each do two weeks, 8am – 11pm procedure rotation, can reach
- Grow mentor program for junior faculty; will send associate professor level or above will receive email from Sara today asking if want to be a mentor; looking to expand
- Resident recruitment concluded; interviewed 274 categorical peds, 48 child neurology, and Med- Peds; March 18 is Match Day; thanks to all who participated

Research | Jan Sullivan (see slides)

- SPRC (Scientific Protocol Review Committee) created per the NCRI agreement between UofL & NHC, will be soliciting members to join
- Submit all proposals through NCRI; submitted outside, it delays submissions
- Michelle Stevenson shared that help is now available with research services; an “Access to Pediatric Research Services Request Form” available online on the departmental research page later in the week; form shared and reviewed in detail; the form documents the request and allows staff to appropriately respond and distribute
- Reviewed the upcoming PIRATs ScholarSHIP conferences for February, March and April
- Met with the UofL Writing Center, can help with manuscript writing, their style is more like coaching

Clinical | Susan Friedrich

- Effective March 1, there will be a change made within the Clarus on-call back-up notification; currently the on-call provider is first call, the practice manager is second call; the new order will be the on call person first, the

Use of this information is for internal UofL Department of Pediatrics' audiences.

medical director second, and practice manager third; the intent so that the medical director can assist since it is likely a medical related call; there is a recording system, some calls come in direct, can track calls

- In response to a question, contracts will roll over unless change in comp
