Unplanned extubation		124	66	70	74	60	52	40 / 0

Glucose Management Program (NCH Diabetes Program Certification by DNV)

SPS Ambulatory Portfolio

Ambulatory Foundations
Ambulatory CLABSI
Ambulatory Incubator

Children's Hospitals'
Solutions for Patient Safety

Foundations

Establishing the structures, resources, and culture needed to make improvement in ambulatory settings

All in network-wide work

CLABSI

Reducing central line-associated blood stream infections in ambulatory Hem-Onc and Intestinal Failure patients with central lines

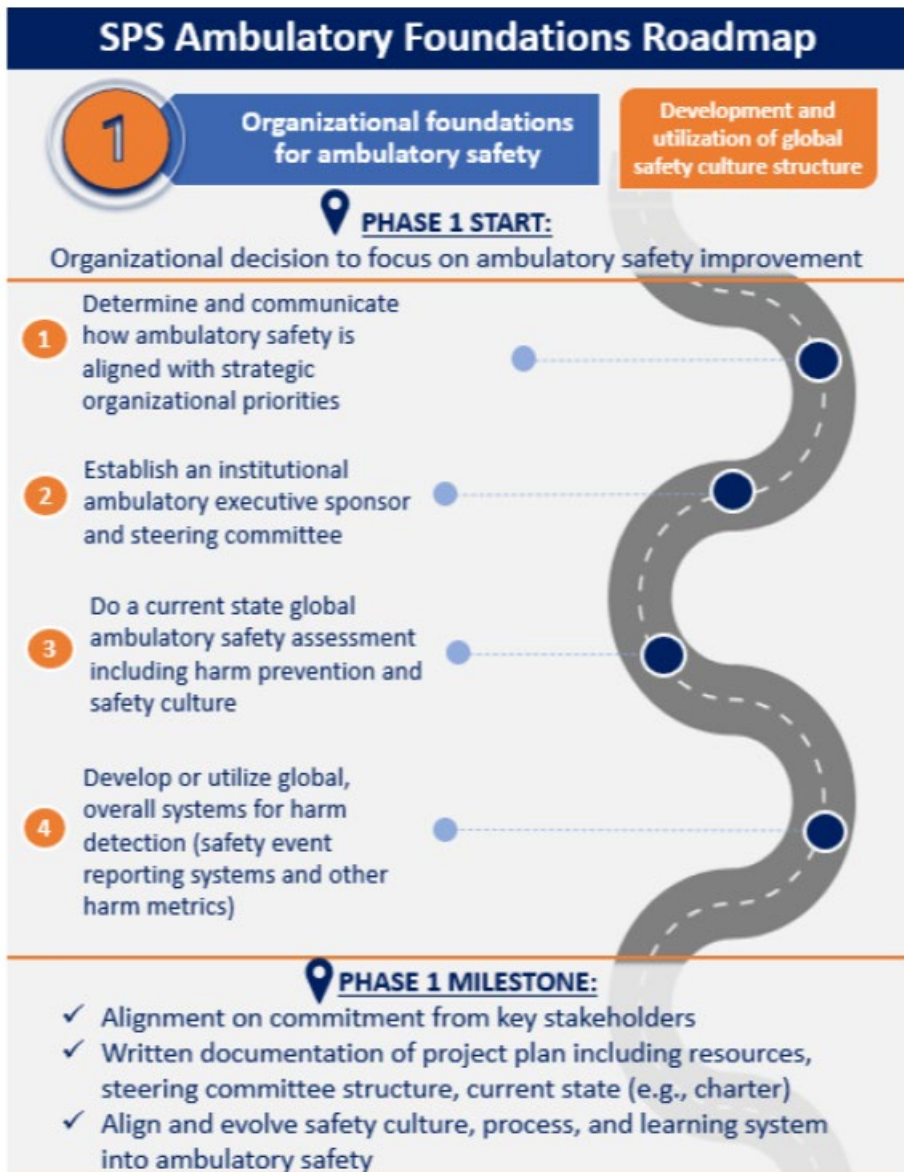

Volunteer pioneer cohort

Incubator

Supporting other serious ambulatory harm reduction for employees and patients

Volunteer team-based small group testing

Assessment

- What we already have in place
 - Baseline safety culture survey data
 - Novak infusion center, XR, Pharmacy, outpatient diagnostics already under CARE Innovation/NCH leadership
 - NCMC already under CARE Innovation/NCH leadership
 - Since everyone in NCMG is employed, all have received R4Z training
 - NCMG has a Risk Director and Manager (Tracy Duncan and Kory Wooden and submits safety reports through the same system as NCH
 - NCH already connected and active in SPS. Developed, managed, and implemented program at NCH/NCMC

Ambulatory Safety Leadership

**Vicki
Montgomery**

Inpatient and
Ambulatory Portfolio
Leader

**Physician
Leader**

There will be some
clinical relief. Have
asked for 0.4 FTE

**NCMG
Program
Leader(s)**

Kory Wooden +
Project Leader

SPS Fall Learning Session

- 100% Virtual
- No cost
- Dates

Date	Time	Topic
October 11	2 – 4 pm	Execution of bundle reliability
October 27	1 – 3 pm	Improving Employee Safety
November 2	2 – 4 pm	Safety Culture Methods
November 8	12 – 2 pm	Integrating Ambulatory Safety
November 16	2 – 4 pm	Recognizing and Eliminating Safety Disparities

[Registration Link](#)

Reaching for Zero Teams

- 'Safety and Disparities
- Readmissions
- Length of stay
 - Time from discharge order to leaving room
 - Time from admission to discharge
- Employee safety
- Continuing Teams
 - CLABSI
 - Unplanned extubation
 - Pressure injury
 - NAKI
 - Colon SSI
 - PIVIE

Guidelines

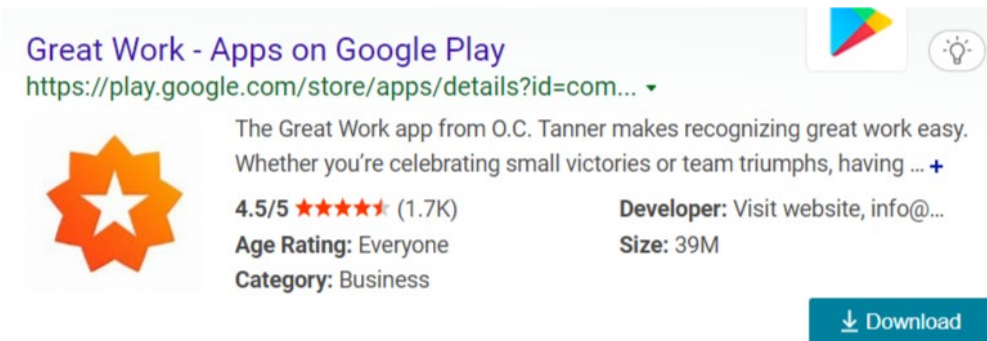

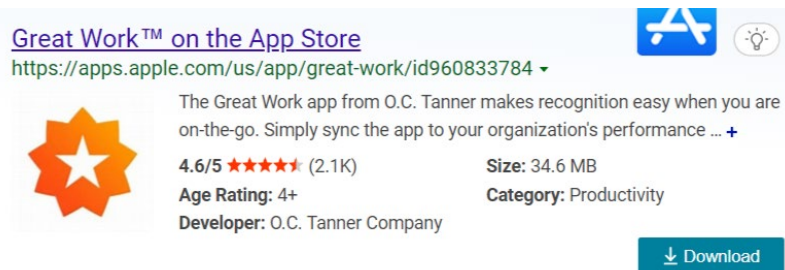

- Current guidelines
 - Severe sepsis and septic shock
 - COVID and MIS-C
 - Acute dehydration
 - PIVIE prevention
 - Brief Resolved Unexpected Event (BRUE)
- Under development
 - Acute status migrainosus
 - ED and inpatient asthma

Reaching for Zero Executive Council

- Oversight body for quality, safety, and risk at NCH.
- Are goals, targets, expectations being met?
- Identify barriers to success and help mitigate them.
- Celebrate successes.
- Service line and program presentations
- If you lead a group/chair a committee and find that you are having challenges with regards to quality, safety, and/or risk, please reach out to Vicki, Kelly or Stephanie to elevate your issue to the Council. In the near future, we will be providing a report template for committees and teams to use to inform the Council of work, successes, challenges, etc.

NCards

- Can send from your phone – takes less than 5 minutes
- Go to your app store and download and follow the instructions.
Takes about 5 minutes to download and connect to NHC. Use your Norton logon information. Open app and tap on the APPRECIATE NOW blue bar.

Why complete a safety report

- Help fix system and process issues that create safety risks every day
- Prevent a harm event before it happens

Quarterly Zero Hero Award

- Nomination criteria - *distinction from a good catch*
- CARE Innovation is requesting nominations monthly from NCH leadership. CARE Innovation leadership selects monthly recipient.
- Clinical and non-clinical nominees eligible.
- Annual selection of Zero Hero of the Year.

Shout outs!

- Kerry McGowan: rounding of MESNA dose led to more than a 10% increase in the per kg dose
