

Medical Education Updates

March 6, 2023

Faculty Development Offerings

- Survey regarding the future of our certificate programs

In-Person Large Conferences

- Found some tech work-arounds for the Norton Auditorium
- Should* be able to both stream and project on the large screen
- Trial of Resident Grand Rounds in Norton Auditorium on March 23, 2023 with lunch served
- In-person Quiz Bowl Grand Rounds on June 16, 2023
- Goal: fully move Grand Rounds, Resident Grand Rounds, M&M back to Norton Auditorium in July
- If* we feel confident in the process before July, we may consider offering GR in NA sooner

*big if... and people still need to show up... and the in-room mic probably won't work...

New Proposed Pediatric Program Requirements for 2024

- Don't panic, try not to get caught up in the hype
- Re-emphasizing general pediatrics training
 - Required mental health and advocacy training
 - Required outpatient subspecialty experience
 - Bigger emphasis on general inpatient wards and hospital medicine
 - De-emphasize inpatient subspecialty-based services
 - Changes in minimum ICU time and procedural training requirements
- This does not sound reassuring at all...

Proposed Requirements

- We're well-positioned to adjust
 - Already do great advocacy work
 - Already have elective mental health opportunities
 - Inpatient services already general medicine-based
 - Most subspecialties elective with inpatient and outpatient opportunities
- There will be change and work
- Great opportunity to explore new ideas!
