

Last	First, M	Faculty Mentor	Title of Research Project Poster
Augenstein	Isabell	J. Christopher States	Chronic Arsenic Exposure Inhibits Both Autophagy and Proteasomal Protein Degradation in Human Keratinocytes.
Batista Torres	Ramon	Kelly McMasters	Wnt10b drives T-cell differentiation in human peripheral T lymphocytes from melanoma patients.
Cahill	Caitlin	John Wise Sr.	Mechanism of Hexavalent Chromium Carcinogenesis: The Unloading of Cohesin from Chromatin.
Clements	Noah	Robert Martin	Combined pre-operative risk score predicts pancreatic leak after pancreatic resection.
Cox	Raven	Haixun Guo	Development of B7-H3 PET Imaging Biomarker for Cancer Immunotherapy.
Edwards	Campbell	Rodolfo A Zamora	Computerized Navigation Resection of Simulated Bony Tumors Using Skin Fiducials and K-Wires: An In Vitro Cadaveric Study.
Filson	Anthony	Robert Martin	A Meta-Analysis and Systematic Review of Intraoperative Bile Cultures Association with Postoperative Complications in Pancreaticoduodenectomy.
Forry	Bryce	Scott Silva	Assessment of radiation toxicities following tandem and ovoid brachytherapy.
Graves	Danielle	Kathy Baumgartner	Factors Influencing Knowledge of HPV Among Cervical Cancer Survivors.
Huffines	Rhiannon	Mollie Aleshire	Cervical Cancer Screening Facilitators and Barriers in Sexual and Gender Minorities: Stakeholders' Perspectives
Kabithe	Alyssa	Liz Cash	Depressive Symptom's Impact on Inflammation in Head and Neck Cancer Patients.
Osborne	William	Robert Martin	Non-Ablatable/Resection Recurrence Failure after First Treatment in Hepatocellular Carcinoma (HCC).
Pierce	Katherine	Robert Martin	Developing sarcopenia during neoadjuvant therapy is associated with worse survival in esophageal adenocarcinoma patients.
Polzin	Baylee	Liz Cash	Depressive Symptoms and Tumor Response Among Head and Neck Cancer Patients.
Wadhwa	Shruti	Michael Egger	Risk Of Recurrence Drives The Cost-Effectiveness Decision-Making For Adjuvant Immunotherapy For Melanoma.
West	Natalie	Michael Egger	Incidence Of Interval Sentinel Lymph Nodes With The Use Of Routine Lymphoscintigraphy In Extremity Melanoma.
Wilson	Megan	Norm Lehman	Carboplatin and TPI 287 are synergistic against glioblastoma cells.
Xu	Manting	J. Christopher States	Chronic Arsenic Exposure Reduces DNA-PKcs Phosphorylation and Causes Continued DNA-PKcs Cleavage in Immortalized Human Keratinocytes.
