EDUCATION

Indiana University Vascular and Interventional Radiology Fellowship	July 2020 – June 2021
University of Louisville Department of Radiology Residency	July 2016 – June 2020
University of Louisville Department of Surgery Residency	July 2014-June 2016
University of Louisville, MD	June 2014
University of Kentucky, Bachelor of Science Graduated Cum Laude Major: Biology	May 2010

WORK EXPERIENCE

Radiology Alliance	August 2021 – Present
---------------------------	-----------------------

A large private practice in Nashville, TN. I work as an interventional radiologist performing complex procedures, as well as interpreting diagnostic studies.

HONORS AND AWARDS

Chief Resident, Dept. of Radiology 2018-2020

University of Louisville School of Medicine Distinction in Research

Research! Louisville 2011 Finalist

Direct Peritoneal Resuscitation Improves Mortality, Liver Blood Flow and Fluid Balance in a Rat Model of Acute Brain Death

First place at Kentucky's American College of Surgeons meeting 2012

Direct Peritoneal Resuscitation Prevents Cytoplasmic HMGB1 After

Poster Presentations

Shah, C., Ghazi, C., Han, Q., Kapoor, H., Gabriel, G., Chadalavada, S., Coldwell, D. IR Primer: A Multi-Center Medical Student Educational Initiative. Presented at AUR 2018, Orlando, FL

Ghazi, C, Peterson, S, Coldwell, D, Dinglasan, L. Does Timing of Radiation Treatment Affect Endovascular Stenting Procedure Parameters in the Treatment of SVC Syndrome? Journal of Vascular and Interventional Radiology, 29(4), s266-267. Presented at SIR 2018, Los Angeles, CA.

Ghazi, C, Matheson, P, Cain, B, Hurt, R, Downard, C, Smith, J, Garrison, R. Direct Peritoneal Resuscitation Improves Mortality, Liver Blood Flow and Fluid Balance in a Rat Model of Acute Brain Death. Research! Louisville, Louisville, KY, 2011

Practice Quality Improvement Project

IR Equipment Primer – Created a lecture and hands-on seminar to educate residents and medical students on the basics of IR needles, catheters, guidewires etc.

SERVICE & LEADERSHIP

Chief Resident, Dept. of Radiology 2018-2020

Resident Quality and Safety Leadership Council 2018 - present – As the representative for the department of radiology, I work directly with residents from other specialties to improve patient satisfaction and the quality of care provided at our institution.

RAD FLiCKs Volunteer 2017, 2018, and 2019 – Volunteering at this annual multi-institutional radiology fair for medical students allowed me to expose students to the diverse offerings of a career in radiology.

Hope Clinic, Clinic Director June 2011-May 2012

Hope clinic is a free clinic supported by the University of Louisville that serves the residents of two halfway houses in the downtown Louisville area. It is operated by a group of four second-year medical students (three classmates and myself) each year and is made possible by physicians willing to volunteer their time. My classmates rotated through our clinic in eight-week intervals to gain early clinical experience during the traditionally pre-clinical years.

HOBBIES AND OUTSIDE INTERESTS

Staying active - I've run several half marathons and one full, although I spend more time on the Peloton now due to a dearth of sidewalks in Nashville.

Spending time with family – My wife and I have a wonderful daughter who we enjoy every day.

Eating – This is one of my main objectives when traveling. I love trying new foods.

Listening to podcasts - Some of my favorites are "Wait, Wait, Don't Tell Me", "Stuff You Should Know", "Lex Fridman", and "Back Table".
