## How ExamID works

To avoid being flagged, be sure to follow these best practices:

• Ensure that you have privacy for the entire exam - do not interact with other people or receive any outside assistance

- Remain focused on the exam, without looking at your phone, textbooks, or notes
- Do not read exam questions out loud
- Do not use your mobile phone at any time

• Do not get up from your computer for any reason until your exam is complete Finishing Your Exam

Once your exam is complete, Examplify will automatically upload your answer file along with the video recording to be proctored.

• Keep your computer connected to the internet with Examplify until you verify that the upload is complete

• If for some reason your computer is turned off before the upload is complete, it will automatically resume when your computer is turned on and connected to the internet.
