

# Put the Right Technology in Your Hands

You wouldn't buy the wrong books for your classes, so why buy a PC that won't live up to the rigors of college life? Purchasing a Lenovo-brand notebook all but guarantees your success for this semester and future years. And thanks to this aggressively priced program, University of Louisville School of Medicine students will get more for less!

**lenovo** FOR  
THOSE WHO DO.

Recommended Notebook

**ThinkPad X240—TopSeller Model** is thin, light, and built to last. Power Bridge technology lets you go 10 or more hours without plugging in, vPro gives you the ultimate in manageability, and plenty of other features let you take your studies on the road.
