

How to Screen Record with QuickTime Player

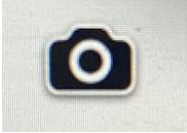

1. Open Finder and select your Application folder. Double click QuickTime Player to open QuickTime.

2. Select File > New Screen Recording.
3. Select Options and choose Built-in Microphone

4. Your mouse arrow will be replaced with a picture of a camera.

5. Click anywhere on the screen to start recording. Click the Stop button in the tool bar at the top of your screen to stop the recording. The recording automatically saves to your desktop.
