

# Integrated First Year Curriculum

2015-16 YEAR 1 SCHEMATIC																					
FALL SEMESTER																					
CADE: Musculoskeletal				CADE: Thorax			CADE: Abdomen & Pelvis		CADE: Head & Neck				Foundations: From Genes to Organs			BREAK	Foundations: From Genes to Organs			HOLIDAY BREAK	
ICM 1: Physician and Society, Lifelong Learning, Cultural Diversity, Longitudinal Standardized Patient Program, ICCs																					
1 <small>(starts Aug 3)</small>	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17 <small>(starts Nov 23)</small>	18	19	20 <small>(ends Dec 18)</small>	21	22 <small>(ends Jan 1)</small>
SPRING SEMESTER																					
NBS 1: Cardiovascular, Respiratory, Renal, Acid-Base						BREAK	NBS 2: Nutrition, GI, Endocrine Systems					BREAK	NBS 3: Neurologic System					NMBE Shelf			
ICM 1: Physician and Society, Lifelong Learning, Cultural Diversity, Longitudinal Standardized Patient Program, ICCs																					
23 <small>(starts Jan 4)</small>	24	25	26	27	28 <small>(ends Feb 12)</small>	29	30 <small>(starts Feb 22)</small>	31	32	33	34	35 <small>(ends April 1)</small>	36	37 <small>(starts April 11)</small>	38	39	40	41	42 <small>(ends May 20)</small>		
SUMMER																					
BREAK																					
43 <small>(Starts May 23)</small>	44	45	46	47	48	49	50	51	52 <small>(Ends July 29)</small>												

CADE: Clinical Anatomy, Development, and Physical Examination: Integrates Gross Anatomy, Embryology, and Physical Examination skills
Foundations: From Genes to Organs: Integrates Biochemistry, Medical Genetics, Histology, Neuroscience, and Physiology at the molecular and cellular levels
NBS 1: Normal structure and function of the cardiovascular, respiratory, and renal systems
NBS 2: Normal structure and function of the gastrointestinal and endocrine systems and nutritional principles
NBS 3: Normal structure and function of the neurologic system

# Integrated Second Year Curriculum

2015-16 YEAR 2 SCHEMATIC																						
FALL SEMESTER																						
Disease and Therapeutics 1										Biostatistics/ EBM		Disease and Therapeutics 2				BREAK		Disease and Therapeutics 2			HOLIDAY BREAK	
ICM 2: Longitudinal Standardized Patient Program, Preceptorships, ICCs																						
1 <small>(starts Aug 3)</small>	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17 <small>(starts Nov 23)</small>	18	19	20 <small>(ends Dec 18)</small>	21	22 <small>(ends Jan 1)</small>	
SPRING SEMESTER																						
Disease and Therapeutics 3							BREAK		Disease and Therapeutics 4					NBME Shelf								
ICM 2: Longitudinal Standardized Patient Program, Preceptorships, ICCs																						
23 <small>(starts Jan 4)</small>	24	25	26	27	28 <small>(ends Feb 12)</small>	29	30 <small>(starts Feb 22)</small>	31	32	33	34	35	36	37 <small>(ends April 15)</small>								
SUMMER																						
Break: Step 1 Study																						
38	39	40	41	42	43	44	45	46 <small>(ends Jun 17)</small>														

<b>Disease and Therapeutics 1:</b> Injury, infection, immunity and neoplasia mechanisms and treatment
<b>Biostatistics and Evidence-Based Medicine:</b> Research and statistical methods and applicability to improving patient care
<b>Disease and Therapeutics 2:</b> Diagnosis and treatment of cardiovascular, respiratory, renal, and male genital system disorders
<b>Disease and Therapeutics 3:</b> Diagnosis and treatment of female reproductive, gastrointestinal, hepatobiliary, Integumentary, and endocrine system disorders
<b>Disease and Therapeutics 4:</b> Human psychosocial development, human sexuality, and the diagnosis and treatment of neurologic and behavioral disorders
